# Introduction

Following the endorsement of the National Curriculum Framework (NCF) in 2012, an ambitious plan was launched with the aim of putting theory into practice. Built upon the National Minimum Curriculum (2000), it addressed the gaps in Malta's learning processes where emphasis shifted from teaching the subject to teaching the learner.

The National Minimum Curriculum framework took important policy-related documents issued by the European Commission into consideration. These included the *Key Competences for Lifelong learning – A European Reference Framework* (included in the annex of the Recommendations; 2006/962/EC); the *Strategic Framework for European Cooperation in Education and Training* (ET 2020; 2009) and *Europe 2020 – A Strategy for Smart Sustainable and Inclusive Growth* (COM (2010) 2020) which is the follow up to the *Lisbon Strategy for Growth and Jobs* (Memo 06/478/12 Dec 2006).

Against the background of Malta's historical development and on the basis of the curriculum and EU documentation the NCF seeks to provide strategic direction by rationalising the necessary changes and their implications for area/subject content, pedagogies and assessment. The NCF was presented within a lifelong learning perspective and celebrates diversity by catering for all learners at each stage of their education. It aims to introduce more equity and decentralisation in the national system. The NCF seeks to present a seamless curriculum which reflects smooth transitions, building and extending on the firm foundations in early childhood education. In essence, the NCF aims to provide a quality education for all learners, reducing the percentage of early school leavers and encouraging their enrolment in further and higher education.

The NCF proposed a Learning Outcomes Framework (LOF) as the keystone for learning and assessment throughout the years of compulsory schooling. The aim of the Learning Outcomes Framework is to free schools and learners from centrally-imposed knowledge-centric syllabi and to give them the freedom to develop programmes that fulfil the framework of knowledge, attitudes and skills-based outcomes that are considered national education entitlement of all learners in Malta. The LOF is thus intended to eventually lead to more curricular autonomy of colleges and schools so as to better address the learning needs of their learners.

A number of other local policy documents published in recent months have also contributed to the need of a learning outcomes-based approach in today's educational structures. In particular, the *Framework for the Education Strategy for Malta 2014 – 2024* (2014), *A National Literacy Strategy for All in Malta and Gozo 2014 – 2019* (2014), *A Strategic Plan for Early School Leaving in Malta 2014* (2014), *Education for All: Special Needs and Inclusive Education in Malta* (2014), *Malta National Lifelong Learning Strategy 2020* (2015) and *Respect for All Framework* (2015) all point toward the need to provide equitable opportunities for all learners to achieve educational outcomes at the end of their schooling which will enable them to participate in lifelong and adult learning, reduce the high incidence of early school leaving and ensure that all learners attain key competences in literacy, numeracy, science and technology.

The ESF 1.228 Project – *Design of Learning Outcomes Framework, Associated Learning and Assessment Programmes and Related Training* is intended to deliver this Learning Outcomes Framework approach to the educators and all relevant stakeholders within compulsory schooling. It addresses the holistic development of all learners and advocates a quality education for all as part of a coherent strategy for lifelong learning which aims to ensure that all children have the opportunity to obtain the necessary skills and attitudes to be future active citizens and to succeed at work and in society irrespective of socio-economic, cultural, racial, ethnic, religious, gender and sexual status.

The LOF will allow for flexibility in teaching and learning programmes in order to address specific needs and to build upon strengths within the context of the learning communities in different colleges and schools. This concept of flexibility is promoted throughout the entire framework. While acknowledging that out-of-school factors such as poverty and social exclusion affect learner achievement, the LOF seeks to improve learners' learning experiences by encouraging creativity, critical literacy, entrepreneurship and innovation at all levels. This will allow learners to reach their potential by connecting what they have learnt to their individual contexts. Consequently, this will help learners develop a positive attitude towards learning and a greater appreciation of its usefulness.

The move from a prescriptive content-based curriculum towards a learning outcomes approach will impact all programmes in schools and all external examinations and assessment at the end of compulsory education in Malta.

The LOF was also designed to meet the four broad education goals outlined in the *Education Strategy for Malta 2014 – 2024* (Ministry for Education and Employment, 2014), namely to:

- reduce the gaps in educational outcomes between boys and girls and between students attending different schools, decrease the number of low achievers, raise the bar in literacy, numeracy and science and technology competence and increase student achievement.
- support educational achievement of children at-risk-of-poverty and from low socio-economic status and reduce the relatively high incidence of early school-leavers.
- increase participation in lifelong learning and adult learning.
- raise levels of learner retainment and attainment in further, vocational and tertiary education and training.

The Learning and Assessment Programmes (LAPs) which were drawn up for each subject will ensure that the focus is on the learner. As such, learning activities will be geared to stimulate creativity and imagination; enable learners to make correct value judgements when editing/correcting their own work; develop learners' investigative and constructive skills by making use of different media and promote receptive skills (listening and reading) which lead to productive skills (speaking and writing). LAPs are also intended to create an atmosphere where learners develop their own problem solving skills and their ability to think and reason logically; reflect on outcomes and consequences and explore possible alternatives and apply interesting and realistic contexts that are personally meaningful to them.

With the use of LAPs, teachers will be encouraged to create situations and resources which are intrinsically interesting, culturally embedded and cognitively engaging and enable learners to connect the various types of information that they have acquired.

## THE LEARNING AND ASSESSMENT PROGRAMME FOR GERMAN

This document, which is aimed at policy makers, educators and educators in the classroom, presents the Learning and Assessment Programme (LAP) for German.

The LAP comprises:

- **The Learning Outcomes Framework (LOF)** - this encompasses a set of subject learning outcomes (SLOs) that set out what a learner is expected to know, understand or be able to do as a result of a process of learning. These learning outcomes are designed to be used in a range of delivery contexts and taught using different methods. They state the end result rather than describe the learning process or the learning activities.
- **Notes on Pedagogy and Assessment** - the learning outcomes are written in a way that informs pedagogy and, in conjunction with the assessment strategies related to each outcome, set a clear assessment expectation. This document sets down good practice teaching and assessment guidelines which educators may wish to take on board and adapt to meet the needs of their learners.

This document has been collaboratively developed by the Outlook Coop Learning Outcomes Framework Joint Venture comprising Outlook Coop as the lead partner, East Coast Education Ltd. and the University College London Institute of Education together with the Directorate for Quality and Standards in Education (DQSE). Mr Barry Smith (Joint Venture Technical Director), Mr Godfrey Kenely (Joint Venture Contract Director), Dr Michelle Attard Tonna (Head of Project) and Mr Gaetano Bugeja (Project Leader) directed the project experts.

# Subject Learning Outcomes

---

# GERMAN

---

LEVELS **7** **8** **9** **10**

The Subject Learning Outcomes (SLOs) for German span from Attainment Level 7 to Attainment Level 10.

Within the Learning Outcomes Framework, Level 10 is viewed as the ‘gifted and talented’ level. Outcomes within this level sit at the upper end of the ability spectrum and extend learners further.

The core concept is *better* rather than *more*. At Level 10 learners demonstrate a deeper understanding and wider application of Level 9 content which marks the end of compulsory schooling. Level 10 outcomes may draw on three main areas:

- increased sophistication of understanding of the Level 9 content
- greater learning autonomy in developing understanding and skills
- increased application and problem solving.

It should be noted that each Attainment Level can be extended further and suggestions for this will be included in the Pedagogy and Assessment section of the document.

## LEVEL 7

### Subject Focus: Introductions

- I can greet people appropriately, ask how they are, tell them how I am and ask how others are.  
 LISTENING AND SPEAKING
- I can use different forms of address to speak to friends, teachers and people I do not know, using formal and informal modes of address and language.
- I understand when the teacher is speaking to one person or more than one person in class and am able to respond to simple commands (mostly passive, receptive language with some active, productive language).
- I can recognise ‘du’ and ‘Sie’ forms, and phrases *such as ‘Entschuldigung, Entschuldigen Sie, bitte’*.
- I can react appropriately when the teacher asks me to do something in German and ask for help if I do not understand.
- I understand and can use the verbs ‘haben’ and ‘sein’ well.
- I understand and can use the possessive pronouns ‘mein’, ‘dein’ and ‘Ihr’.  
 LISTENING AND SPEAKING
- I can introduce myself, say my age, birthday, nationality and where I live, and ask about other people’s names, ages and nationalities.  
 LISTENING AND SPEAKING
- I can introduce people to others and can make use of the personal and the possessive pronouns in the nominative case.  
 LISTENING AND SPEAKING
- I can understand simple texts which provide personal details of others.
- I can write a short introduction about myself and others, providing personal details and using simple connectors *e.g. ‘und, aber, auch’*.
- I can show use of common regular and irregular verbs in the present tense, articles, genders, alphabet, some nationalities and some adjectives.  
 WRITING
- I can spell in German, showing knowledge of the German alphabet.
- I can retrieve basic personal information from a text *e.g. to fill in a ‘Profil’ or ‘Anmeldungsformular’*.  
 READING AND UNDERSTANDING
- I can use the modal verbs ‘können’, ‘dürfen’ and ‘möchten’ in the present tense, in order to write/speak simple sentences *e.g. Ich kann ein bisschen Deutsch verstehen*.

## Subject Focus: The Calendar

1. I can understand and produce the cardinal numbers up to 1,000,000.  
 READING AND UNDERSTANDING
2. I can apply my mathematical knowledge and understanding to make additions and subtractions in German.  
 COGNITIVE LEARNING
3. I can represent my numerical findings in digits and I can talk about them *e.g. I can carry out a survey in class about how many of my friends have a sibling or a pet.*  
 MANAGING LEARNING
4. I can understand and produce the ordinal numbers, up to 31, combined with dates and months *e.g. 'der erste Januar, der dritte Monat'.*  
 LISTENING AND SPEAKING
5. I can talk about dates and the weather in Malta and other places and ask others about dates and weather in German-speaking countries, regions and other places, using weather expressions *e.g. 'Mir ist warm, Hier ist es kalt'.*  
 LISTENING AND SPEAKING
6. I can understand general weather information, *such as temperatures*, when listening to weather forecasts.  
 READING AND UNDERSTANDING
7. I can talk about seasons with prepositions *e.g. im Sommer, im Herbst, im Winter, im Frühling.*
8. I can talk about feasts and special occasions in German-speaking countries and in Malta *e.g. Der Nikolaustag ist am 6. Dezember.*  
 LEARNING TO BE
9. I can understand simple texts about the weather and feast dates or occasions in Malta and other countries using vocabulary *such as 'traditionell, and speziell'.*
10. In collaboration with others, I can prepare a short presentation, using simple German, about special days and/or weather conditions in a German-speaking country.  
 CREATIVE LEARNING
11. I can recognise the time *e.g. Es ist zehn Minuten nach vier / Es ist vier Uhr zehn Minuten.*
12. I can ask questions related to time *e.g. 'Wann stehst du am Morgen auf?, Wann beginnt die erste Stunde?'*
13. I can write a few sentences about my daily routine *e.g. Ich stehe um 7 Uhr auf. Dann frühstücke ich.*

## Subject Focus: Family, Pets and Friends

1. I can say how many people are in my family and who they are, using appropriate vocabulary which describes family members, reinforcement of regular and irregular verbs, possessive pronouns and negatives in fixed phrases *e.g. 'Ich habe keine Geschwister'.*  
 LISTENING AND SPEAKING
2. I can use connectors *e.g. 'und, aber, auch'* and I can use the accusative case with the direct object *e.g. 'Ich habe einen Bruder, aber keinen Vater'.*
3. I can ask other people about who is in their family and understand what they tell me; I understand that different types of families exist, even different from the 'dominant group'.  
 SOCIAL CHANGE
4. I can say what my pets are, or that I don't have any pets using the verb 'haben' and the use of negatives with fixed phrases *e.g. 'Ich habe keine Haustiere'.*
5. I can ask other people if they have pets.
6. I can understand when people are describing their own or someone else's family, including any pets, in spoken or written German.
7. I can produce a short text, *such as an e-mail*, about my family, including any pets.  
 DIGITAL MEDIA

### Subject Focus: Describing others

1. I can describe my family, friends and pets using adjectives to describe height, size, hair and eye colour and character, adjective agreement, position of adjective in sentence and comparisons *e.g. 'groß, größer, klein, kleiner', 'Die Augen sind blau'*.  
 EXPRESSIVE LANGUAGE
2. I can ask others to describe themselves and members of their family, friends and pets using adjectives; I can use the correct form of adjectives and place them in the correct position in a sentence *e.g. Das Haar ist braun.*
3. I can read and listen to simple texts, using mostly familiar language to find information about people, their families, friends and pets.
4. I can write a short description of my family, friends and pets for others showing my understanding of adjectives, position, agreement and comparison *e.g. Ich bin älter als meine Schwester'*; I can also present the information in various ways.  
 EXPRESSIVE LANGUAGE
5. I can collaborate with others to write a report about the families/pets/friends of people in my class or a description of an imaginary family and take part in a presentation of the report using simple language *e.g. 'In meiner Klasse sind wir ... Personen'*.  
 CREATIVE LEARNING

### Subject Focus: School

1. I can describe my classroom and what is in it *e.g. 'In meiner Klasse gibt es ... + acc'*.
2. I can make requests in the classroom and ask for help in German using *'Darf ich...?', Entschuldigung, haben Sie..., Ich habe ein Problem, Wiederholen Sie bitte!'*.  
 SOCIAL LEARNING
3. I can address people appropriately, showing understanding of the use of 'du' and 'Sie' and when to use them appropriately at school.
4. I can understand people talking or writing about their schools in German-speaking areas.  
 READING AND UNDERSTANDING
5. I can describe my classroom both orally and in short written texts.
6. I can describe my school and ask others about their school using fixed expressions *e.g. 'in der Stadt, auf dem Land, am Meer, Es liegt...'*.
7. I can identify different subject areas in my school and say what subjects I study.
8. I can understand short texts about the school subjects of people in a German-speaking country and other countries and their schools.
9. I can talk about my school and daily routine, consolidating vocabulary related to the time and I can ask others about their routines including time, times of day *e.g. 'dreimal pro Tag, viermal pro/der Woche'*.
10. I can write my own school timetable in German.  
 WRITING
11. I can describe my subjects and ask others what they think of other subjects *e.g. 'Wie findest du Deutsch?'*.
12. I can say when different classes are and ask others about times of their classes.
13. I can collaborate with others, using ICT and bi-lingual dictionaries, to conduct research about schools and the school day in a German-speaking country and take part in a presentation of the findings in simple German.  
 SOCIAL LEARNING

## Subject Focus: Opinions

1. I can say that I like, dislike or prefer certain animals, people in my family, school subjects and use adjectives to say why.
2. I can ask others about their likes and dislikes, using vocabulary *such as 'Gefällt es dir ...?', 'Ich habe ...lieber', 'Ich habe...am liebsten'.*
3. I can understand short texts, in mostly familiar language about other people's likes and dislikes.

READING AND UNDERSTANDING

4. I can write a short text to inform others about my likes and dislikes, providing reasons.

WRITING

## Subject Focus: Home and Home Area

1. I can talk about where I live and the surrounding area, saying what there is to see and do.
2. I can use the expression 'es gibt' with the accusative case *e.g. 'Es gibt hier einen Fußballplatz'.*
3. I can ask for directions *e.g. 'Wo ist das Rathaus, bitte?'.*
4. I can understand and give directions *e.g. 'Hier links'.*
5. I can describe my house, room and immediate surroundings using basic vocabulary *e.g. 'Wir haben ein Wohnzimmer und ..., Mein Zimmer ist groß'.*
6. I can ask others about where they live and what their homes are like.
7. I can talk about things in the house or surrounding area, using 'es gibt, er ist, sie haben'.
8. I can ask where certain things are in a house or its surroundings using 'Wo gibt es...? Gibt es...?'.
9. I can understand short texts in mostly familiar language about other people's houses and surrounding areas.
10. I can write short, descriptive texts about my own and other people's houses, understand that houses in German-speaking countries are built in a different way than in Malta and know the reason why; I can find visuals of various types of houses in the German-speaking countries.

LEARNING TO DO

11. I can say where I live in relation to a wider geographical context and use situational vocabulary related to geographical locations *e.g. 'im Norden, im Süden, nördlich von' + dative'.*
12. I can ask others about where they live using 'Wo wohnst du genau?'.
13. I can name points of interest in my home area and ask others about points of interest where they live using vocabulary *such as 'In meiner Heimatstadt, In der Nähe von' + dative.*
14. I can take part in conversations about what there is in my home area and elsewhere using 'in Malta, auf der Insel'.

EXPRESSIVE LANGUAGE

15. I can understand and give directions to places in a town or elsewhere using 'Wo ist, wo gibt es hier, ich suche, gehen Sie, gibt es ... in der Nähe?'.
16. I can use ordinal numbers combined with directions *e.g. 'die erste Straße' links.*
17. I can understand short texts in mostly familiar language about other countries and places to live in.
18. I can write a short descriptive text about my home area, conveying my personal opinions *e.g. 'Ich finde meinen Wohnort sehr laut'.*

WRITING

19. I can collaborate with others to make a short presentation or a project about my country and/or a German-speaking country and/or town/ region *e.g. a presentation or project about places of interests in Berlin/Vienna/Bern.*

INTERPERSONAL

### Subject Focus: Leisure Time

1. I can say what there is to do near my home and ask others what there is to do where they live *e.g. Ich kann/man kann schwimmen gehen.*
2. I can talk about different sports and leisure activities with others, asking for and giving my opinions.  
 LISTENING AND SPEAKING
3. I can discuss where, when and with whom I do different leisure activities.
4. I can understand short, basic texts from a variety of sources about leisure activities and people's preferences.
5. I can produce short descriptive texts describing what I do in my free time.  
 PLANNING AND REFLECTION
6. I can collaborate with others to research about leisure activities in a German-speaking country, or to find information about a German-speaking personality and take part in presenting findings in simple German.  
 SOCIAL LEARNING

### Subject Focus: Holidays

1. I can name, in German, my home country, the German-speaking countries and some other large countries in Europe.
2. I can say which countries I would like and would not like to visit.
3. I can listen to a recorded text about people of different nationalities introducing themselves in German and I can understand where they come from and where they live.
4. I can read and understand simple texts about various people of different nationalities introducing themselves, saying where they come from, where they live, which language they speak and what they do for a living.

### Subject Focus: Out and About

1. I can identify different shops and say what they sell *e.g. 'Das ist eine Bäckerei. Hier kann man Brötchen kaufen'.*
2. I can ask how much something costs and understand when someone asks me how much something costs. I can also discuss prices *e.g. 'Wie viel kostet ein Brötchen?; Die Brötchen kosten je 30 Cent'.*
3. I can say what I am wearing, as well as what someone else is wearing showing that I can understand and use vocabulary related to clothing *e.g. Die Bluse ist rot.*
4. I can write a short text describing what I am wearing and I can write a short description about a picture depicting what a person is wearing *e.g. Marias Kleid ist blau.*
5. I can talk about presents that I buy or things that I prepare when invited to a party, making use of the accusative of the direct object *e.g. 'Ich mache Brötchen und kaufe Mineralwasser; Ich hole CDs; Wir bringen Getränke mit'.*  
 EXPRESSIVE LANGUAGE
6. I can read and understand a party invitation or an invitation to a social event and I can reply to it.  
 READING AND UNDERSTANDING
7. I can create and write a party invitation in German, making use of words and phrases related to parties.  
 CREATIVE
8. I can write an e-mail about my last birthday party using basic verbs in the perfect tense.

### Subject Focus: Healthy Living

1. I can name different body parts.
2. I can say what is wrong with me, using 'Ich bin krank', 'Ich habe .....schmerzen'.
3. I can ask others how they feel, using expressions e.g. 'Was ist mit dir los?', 'Wo tut es weh?'.
4. I can understand when others tell me what is wrong with them e.g. 'Was ist denn los? Ich bin erkältet, Ich habe einen Schnupfen'. I can say if I am allergic to something and I can ask others if they have any allergies e.g. 'Ich bin allergisch gegen Milchprodukte' I can understand when others say what allergies they have and I know the words healthy and unhealthy in German and how to use them to describe certain foods e.g. 'Fastfood ist ungesund', using consolidation of food vocabulary.
5. On my own, or in collaboration with others, I can prepare a poster and write a slogan in German promoting health awareness e.g. 'Rauchen ist ungesund, Sport macht fit'.

CREATIVE LEARNING

### Subject Focus: Technology

1. I understand some common vocabulary related to technology that is often used in everyday life, such as 'der Computer, der Laptop, das Handy, das Internet, die SMS, das Smartphone, das Tablet, die Webseite, uploaden, downloaden' and 'speichern'.

### Subject Focus: Food and Drink

1. I can identify items of food and drink, including fruit and vegetables, in a variety of different contexts e.g. 'Zum Frühstück esse ich ...'.
2. I can identify different speciality food/drink shops and talk about what they sell e.g. 'Das ist ein Café. Hier kann ich einen Tee trinken und ein Stück Kuchen essen'.
3. I can buy articles of food and drink using transactional vocabulary and expressions such as 'Ich möchte, Ich brauche, Ich nehme' and use language related to quantities e.g. 'Ein Kilo Äpfel; Ein Liter Milch; Eine Dose Tomaten'.

LISTENING AND SPEAKING

4. I can discuss what I eat during my day showing some use of adverbs of time and routine e.g. 'Morgens esse ich; In der Pause esse ich; Nachmittags nehme ich; Abends esse ich'.
5. I can say what food I like and what food I don't like e.g. 'Ich esse gern; Ich esse kein; Mein Lieblingsessen ist... und mein Lieblingsgetränk ist...'.
6. I can ask questions related to food and table language e.g. 'Kannst du mir die Butter reichen, bitte?, Kann ich noch eine Scheibe Brot haben, bitte?'.
7. I can understand a simple recipe and a menu.
8. I can understand simple texts about food and drink.
9. I can read and understand highly contextualized dialogues and texts in the target language on topics related to food and drink in the present tense.
10. I can write a short text describing what I like and don't like to eat and drink.

# LEVEL 8

## Subject Focus: Introductions

1. I can use formal and informal language when I meet people in a variety of social situations *e.g. 'bis morgen, bis später, bis nächste Woche'*.  
 LISTENING AND SPEAKING
2. I understand different forms of address within the classroom and in different social contexts, with a clear understanding of when 'Sie' and 'du' are used.
3. I can react appropriately when the teacher asks me to do something in German and ask for help if I do not understand
4. I can follow classroom commands (receptive and increasingly active language) and instructions and I can understand and respond appropriately to phrases *such as 'Wiederholen Sie, bitte; Entschuldigung, aber ich habe nicht verstanden/ich habe es nicht gehört; Das war zu schnell; Langsam(er), bitte; Danke schön'*.  
 LISTENING AND SPEAKING
5. I can introduce myself, providing biographical details and can ask others about themselves regarding biographical details.  
 LISTENING AND SPEAKING
6. I can introduce others, providing short biographical details about them while showing good use of verbs, personal and possessive pronouns and prepositions *e.g. 'Er wohnt in..., Sein Name ist..., Ihr Haus liegt am ..., Sie kommt aus...'*.  
 LISTENING AND SPEAKING
7. I can understand texts which provide biographical details of others.
8. I can write a short introduction about biographical details of myself and of others and use common regular and irregular verbs in the present tense well.
9. I can use adjectives of nationality and can talk about ages and birthdays.  
 WRITING
10. I can research the life of a famous German-speaking person(s) in history/the media/sports and create a short presentation about him/her/them.  
 COMMUNICATION
11. I can use vocabulary *such as 'berühmt, beliebt'* and vocabulary related to high profile careers *e.g. 'Sänger(in), Schauspieler(in), Komiker(in), Fußballer (in)'* and use fixed phrases *e.g. 'Er ist...geboren'*; I can use 'seit'+ time phrase and the present tense.
12. I know how to use all six modal verbs in the present tense, in order to write/speak basic sentences *e.g. Ich möchte mich vorstellen.*

## Subject Focus: The Calendar

1. I can recognise and use the cardinal numbers confidently up to 1,000,000.  
 READING AND UNDERSTANDING
2. I can recognise and confidently use ordinal numbers combined with dates and months.  
 READING AND UNDERSTANDING
3. I can research weather updates for different countries, understand and talk about the information presented, show an extension of weather expressions and negatives and qualifiers *e.g. 'Es ist nie sehr kalt, Es schneit fast nie'*.
4. I can broaden my use of prepositions to include places and different locations and use prepositions related to places, using the accusative or dative cases *e.g. Ich fahre nach Valletta und gehe ins Kleidergeschäft.*  
 COLLABORATION
5. I can follow and understand the weather forecast in German.  
 READING AND UNDERSTANDING

6. I can use my literacy and digital literacy skills to retrieve information about a particular important event in a German-speaking country, *such as Christmas, Carnival, Easter and the 'Oktoberfest'*.  
 INFORMATION MANAGEMENT
7. I am able to show that I acknowledge and respect different traditions and cultures of celebrations, use and understand vocabulary *such as 'das Fest, der Feierabend, feiern'*.  
 LEARNING TO LIVE TOGETHER
8. I can use my writing and creative skills to produce material related to special feasts and occasions *e.g. digital Christmas cards, birthday cards and invitations made of recycled material*.  
 COMMUNICATION
9. I can talk and write about my daily routine, consolidating vocabulary related to time, dates and routines and use phrases *such as 'dienstags', 'samstags', 'abends'* to indicate regularity.

### Subject Focus: Family, Pets and Friends

1. I can say how well I get on with members of my family and why, and ask others how they get on with members of their family.  
 COMMUNICATION FOR DIVERSITY
2. I can use language related to the family to show I understand possessive pronouns *e.g. 'mein', 'unser', 'euer'*; the present tense of verbs and conjunctions *e.g. 'weil', 'da', 'denn'*; *with an understanding of word order* and verbs *such as 'sich gut verstehen'* and I can make use of language to describe personal characteristics and make use of adjectives and comparisons, *e.g. Er ist größer als ich und ist auch sehr sportlich*.
3. I can talk about household tasks I perform and ask others about what they do in the house to help; I am aware of my role in the family and can demonstrate respect and care for others, including issues regarding animals and pets.  
 LEARNING TO LIVE TOGETHER
4. I can use my knowledge of time and adverbs of time/regularity *e.g. 'normalerweise, einmal in der Woche, dienstags'*.
5. I can discuss issues related to owning pets.
6. I can express my opinions and feelings *e.g. 'Meiner Meinung nach, vor etw. Angst haben, Ich bin allergisch gegen'*.
7. I can understand short texts in mostly familiar language about the views of others on family life and the tasks they have to perform at home; I understand that different people might have different views than mine and that there are different types of families *e.g. 'Patchworkfamilie'*.  
 SOCIAL CHANGE
8. I can produce a short text and I can talk about my own views on family life and the tasks I perform at home, using vocabulary *such as, 'Ich bin der Meinung, dass; Es gefällt mir; Ich finde, dass, Ich helfe nicht gern im Haushalt'*.  
 WRITING
9. I can discuss and give opinions about my family *e.g. Ich verstehe mich gut mit meiner Mutter*.  
 SOCIAL LEARNING

### Subject Focus: Describing others

1. I can verbally describe myself and others by making use of comparisons, including *'groß, größer, klein, kleiner'*, and superlatives *e.g. 'der größte, am größten, die kleinste, am kleinsten', 'so.....wie'*.  
 EXPRESSIVE LANGUAGE
2. I can understand comparisons when someone talks in German and/or when I read a text in German.  
 EXPRESSIVE LANGUAGE
3. I can write a short paragraph in German drawing comparisons *e.g. between myself and my siblings or peers*.  
 PLANNING AND REFLECTION

### Subject Focus: School

1. I can talk about school rules and ask others about theirs *e.g. Man darf in der Schule nicht telefonieren.*  
 COGNITIVE LEARNING
2. I can understand short texts in mostly familiar language about school routines and expectations in a German-speaking country and other countries and their schools.  
 SOCIAL CHANGE
3. I can describe my school uniform and ask others about their views on school uniforms.
4. I can write a short opinion piece on school rules and uniform.  
 SOCIAL LEARNING

### Subject Focus: Opinions

1. I can say that I like, dislike or prefer certain types of sports, music, films and books using comparisons *e.g. 'Ich finde Popmusik besser als Rockmusik'.*
2. I can ask others what they like and dislike and discuss why, while respecting different opinions, using adjectives *e.g. 'Wie findest du Popstars?, Ich finde sie arrogant'.*  
 COMMUNICATING FOR DIVERSITY
3. I can write a short text mentioning my likes and dislikes.  
 WRITING
4. I can understand long texts, in mostly familiar language about other people's likes and dislikes.  
 READING AND UNDERSTANDING

### Subject Focus: Home and Home Area

1. I can talk about what there is to see and to do in my home area and ask others what there is to see and to do where they live.  
 EXPRESSIVE LANGUAGE
2. I can use various prepositions, with the accusative and dative case, to describe *e.g. where something is, such as 'Die Post ist hinter der Kirche',* or to say how to reach to a place *e.g. 'Gehen Sie hinter die Kirche!'.*
3. I can talk freely about how to get to places in my country and ask others about different means of transport in their country/region.  
 LEARNING TO DO
4. I can talk about a day-trip I made, how I travelled, what I saw and did using the perfect tense *e.g. 'Wir sind mit dem Flugzeug geflogen; Ich habe den Reichstag besucht'.*  
 PLANNING AND REFLECTION
5. I can ask others about day-trips they have made, how they travelled and what they saw and did, by forming questions in the perfect tense.
6. I can understand short texts in mostly familiar language about travelling and things to see and do in different places.
7. I can write a short descriptive text about a day-trip I made, what I did and what I saw.
8. I can work with others to produce a simple travel brochure in German about my country or a particular town/area in a German-speaking country.  
 INTERPERSONAL

### Subject Focus: Leisure Time

1. I can discuss with others what I like to do in my free time.
2. I can describe the kind of films/video games/music/TV programmes that I enjoy and the ones I do not like.
3. I can describe what I did recently and what I did in the past during my free time, using the perfect tense.
4. I can ask others what they have done in their free time recently and what they have done in the past.

5. I can understand short texts in mainly familiar language describing different types of free time activities and people's preferences related to music, books, TV programmes/ video games and films.  
 READING AND UNDERSTANDING
6. In collaboration with others, I can carry out a survey in class, present my findings and talk about how my classmates spend their spare time and what leisure activities they do.  
 SOCIAL LEARNING
7. I can write a short report for a magazine related to leisure and sports using the 'Präteritum' of basic verbs.  
 PLANNING AND REFLECTION

### Subject Focus: Holidays

1. I can name, in German, countries both in and outside Europe and some regions in German-speaking countries.
2. I can talk with others about countries I have visited, or that I have not visited.
3. I can ask others which countries they would like and would not like to visit and why, showing formation of questions e.g. *'Warum willst du/möchtest du...?'*.
4. I can understand simple texts in mostly familiar language about where others would like to travel to.
5. I can write a short account of where I would like to travel to and what I would like to do on holiday, giving reasons e.g. *'Ich will in die Schweiz fahren'*.  
 WRITING
6. With others, I can research a travel destination and present the findings in German.  
 COMMUNICATION
7. I can understand vocabulary related to accommodation and can apply this vocabulary to make a booking for a room at a hotel or a guesthouse.  
 COGNITIVE LEARNING

### Subject Focus: Out and About

1. I know how to use the preposition 'in' correctly e.g. *'Ich kaufe Brötchen in der Bäckerei'*.
2. I can talk about souvenirs/presents I have bought for myself and others and ask others about presents/souvenirs that they have bought, making correct use of the indirect object, the direct object and the perfect tense e.g. *'Ich habe meiner Freundin einen Schal gekauft'*.
3. I can differentiate between the accusative and dative cases e.g. *'Ich hole meinem Vater die Zeitung'*.
4. I can discuss prices and sizes using the language of negotiation e.g. *'Haben Sie...? Ich möchte...'*. and consolidating the use of qualifiers e.g. *'zu, sehr, ein bisschen, viel'* and use adjectives related to shopping e.g. *'teuer, billig, im (Sonder)angebot'*.
5. I can discuss with others the clothes we like to wear and what we wear for particular occasions/times of year/ weather conditions using complex sentences including, *'Wenn es warm ist, trage ich gerne...'*.  
 LEARNING TO BE
6. I can understand texts in mostly familiar language about other people's clothes preferences and what they wear.
7. I can write a short text describing what I like and do not like to wear, using 'weil, wenn and da'.
8. On my own or in collaboration with others, I can describe what a person is wearing and can come up with a catalogue/brochure in German, promoting the latest fashion, making use of adjectives related to clothing, shopping and qualifiers e.g. *'Dieser lange schwarze Rock ist aus Baumwolle und kommt in Größe S, M, L, XL und kostet nur...'*.  
 SOCIAL LEARNING
9. I can understand, as well as produce, an invitation and/or a flyer for a social event e.g. *I can create an invitation in German for a special event being held at school such as 'Schulfest'*.  
 PRACTICAL

### Subject Focus: Healthy Living

1. I can say if I am unwell and what is wrong with me, using 'Es tut mir weh, Mein Kopf tut weh, Ich habe Halsschmerzen, die Grippe, Ich fühle mich nicht wohl'.
2. I can ask others about how they feel, in detail, using expressions for visits to the doctor and illness vocabulary and expressions e.g. 'Was ist los? Wo liegt das Problem? Es tut mir leid'.
3. I can make an appointment with a doctor using 'Ich möchte/will einen Termin bei...machen' showing consolidation of calendar dates and times.  
 LISTENING AND SPEAKING
4. I can talk about an illness/ how I was feeling last week e.g. *Ich hatte Magenschmerzen, denn ich habe zu viel Schokolade gegessen.*
5. I can say what I do to keep fit and understand others talking about the theme and use vocabulary related to sports and free time activities, adverbs and adjectives of time e.g. *Ich trainiere täglich, oft, selten.*
6. I can demonstrate care/respect for others by making suggestions and giving orders/advice to others with regards to a healthy lifestyle, making use of the imperative e.g. 'Iss mehr Obst!, Treib Sport!, Du solltest kein Fastfood essen!'  
 LEARNING TO LIVE TOGETHER
7. I can discuss healthy eating using 'Ich esse gesund, Es gibt Zucker darin, Das ist zu fettig'.  
 SOCIAL LEARNING
8. I can discuss smoking and other unhealthy practices e.g. 'Ich rauche nicht, Rauchen ist sehr ungesund'.  
 SOCIAL LEARNING
9. I can understand texts in mostly familiar language relating to fitness and teenage health issues.  
 LEARNING TO KNOW
10. I can write a text to inform others about the importance of being healthy and what I do to stay healthy.  
 LEARNING TO DO
11. I can collaborate with others to produce a healthy food menu and present it to the class in German.  
 PRACTICAL

### Subject Focus: Technology

1. I can talk about technology that I use in my daily life and ask others about the technology they use, consolidating vocabulary related to technology.
2. I can talk about the use of internet using phrases such as 'im Internet surfen, online sein, ins Internet gehen, etw. ins Internet stellen'.
3. I know how to use an online German-English dictionary.  
 INFORMATION MANAGEMENT
4. I am able to use technology, such as sending e-mails in simple German, to communicate with other learners of German or with native German speakers and appreciate their different cultures, perspectives and opinions.  
 DIGITAL MEDIA

## Subject Focus: Food and Drink

1. I can order food and drink in a café or restaurant using ordering language, *such as, 'Ich möchte...bestellen'; Ich hätte gern...'* showing the use of polite language and appropriate register.  
 LISTENING AND SPEAKING
2. I can understand a basic menu in German.
3. I can talk about food and drink that is particular to my country and ask others about speciality foods of their country.  
 LEARNING TO KNOW
4. I can work on my own or in a group to produce a menu in German and present it to the other learners in class.  
 COGNITIVE LEARNING
5. I can describe particular meals for special occasions *such as for Christmas, New Year and Oktoberfest.*
6. I can read and understand short texts, passages/brochures in the target language on topics related to restaurant services *e.g. through adverts and menus.*
7. I can understand and explain a German recipe showing consolidation of language related to food and the use of the imperative in phrases *such as 'Misch alles zusammen!; Koch die Kartoffeln!'*
8. In collaboration with others, I can research a typical regional speciality of an area of Germany or a German-speaking country and prepare a short presentation in German, or maybe even try the recipe in the school's kitchen and/or organise a German food day at school.  
 PRACTICAL

# LEVEL 9

## Subject Focus: Introductions

1. I can respond appropriately within a variety of social situations when meeting others, using formal and informal modes of address and language, including more complex requests, commands and polite language.  
 LISTENING AND SPEAKING
2. I can confidently introduce myself and others and say something about myself or them.  
 LISTENING AND SPEAKING
3. I can talk about pocket-money and explain how I earn money through a part-time job.  
 PRACTICAL
4. I can use vocabulary and structures related to jobs/professions showing consolidation of numbers, opinions, adjectives, a range of regular and irregular verbs and modal verbs and use pronouns in the accusative and dative cases well e.g. *‘Mir geht es gut!’ Ich möchte nicht als Lehrerin arbeiten. Ich finde den Job anstrengend.*
5. I can discuss pocket money and spending habits with others using ‘kaufen, verdienen, ausgeben’ and showing consolidation of language for likes, dislikes and preferences.  
 LISTENING AND SPEAKING
6. I can understand texts in mostly familiar language about other people’s pocket money and/or part-time jobs.
7. I can write a simple text about my pocket money/my part-time job, describing what I do to earn money thus showing consolidation of language and vocabulary related to household tasks and family members and use prepositions and expressions of purpose e.g. *‘Um mein Taschengeld zu verdienen, muss ich...’.*
8. I can talk about what I would like to do when I leave school and ask others about their career intentions e.g. *‘Ich möchte als Architekt arbeiten’.*  
 INTERPERSONAL
9. I can say what subjects I need to study for my chosen career and ask others what subjects they need to study.
10. I can use phrases such as *‘einen Kurs machen, auf die Uni gehen, im Ausland arbeiten’* and words such as *‘nach, später, dann, eines Tages, danach, anschließend’.*
11. I can understand texts about different types of career choices.

## Subject Focus: The Calendar

1. I can communicate quite easily about the weather and any special occasion/event by relating to my personal experiences, using expressions and prepositions of time, as well as the right tense.  
 LISTENING AND SPEAKING
2. I can use prepositions related to places and dates, using the accusative or dative cases and the correct noun endings e.g. *‘vor zwei Jahren, fünf Jahre lang’.* I can show consolidation of routine/time expressions e.g. *gewöhnlich, normalerweise, selten.*
3. I can listen to a detailed weather forecast in German and understand most of it.  
 LISTENING AND SPEAKING

## Subject Focus: Family, Pets and Friends

1. I can understand texts related to family and pets including basic language in the genitive.

## Subject Focus: Describing others

1. I can use language quite well to describe myself and others with respect.  
 EXPRESSIVE LANGUAGE
2. I can use language creatively and appropriately to write descriptions about myself and others, without being disrespectful e.g. *I can create an online profile; I can reply to ‘Annoncen’.*  
 LEARNING TO LIVE TOGETHER
3. I can listen to a description of a person or persons in German and understand most of it.  
 READING AND UNDERSTANDING

### Subject Focus: School

1. I can talk and write about things I like and dislike about my school.  
 COGNITIVE LEARNING
2. I can listen to native speakers of German and understand them quite well when they talk about school in Germany.  
 LISTENING AND SPEAKING
3. I can understand texts about the German school system.  
 READING AND UNDERSTANDING

### Subject Focus: Opinions

1. I can talk with ease about what I like and dislike.
2. I can easily converse with others about their likes and dislikes and ask related questions, while appreciating and respecting different ideas and/or perspectives.  
 COMMUNICATING FOR DIVERSITY
3. I can write formal/informal letters to express likes and dislikes, providing reasons for my opinion, using conjunctions *e.g. denn, weil, dass*.  
 WRITING

### Subject Focus: Home and Home Area

1. I can say what I do to protect the environment and ask others what they do.  
 LEARNING TO KNOW
2. I can show consolidation of geographical features expressions *such as 'der Berg, das Meer, der See, der Wald'*.
3. I can use vocabulary related to the environment *e.g. 'die Umwelt, die Umweltverschmutzung, die Wiederverwertung, das Recycling, das Naturschutzgebiet'*.  
 LEARNING TO DO
4. I can understand straightforward texts in mostly familiar language about environmental issues in my country and in other countries.  
 LEARNING TO KNOW
5. I can collaborate with others to research, produce and present a poster/presentation in German about protecting the environment.  
 LEARNING TO LIVE TOGETHER

### Subject Focus: Holidays

1. I can understand texts in mostly familiar language about holiday destinations.
2. I can talk about a past holiday(s) and understand others when they talk about past holidays and know when to use the perfect and the imperfect tense *e.g. with 'haben', 'sein' and modal verbs*.
3. I am familiar with language related to different types of holidays and holiday accommodation, *such as 'Urlaub auf dem Bauernhof', 'Campingurlaub', 'Kreuzfahrt'*.  
 LISTENING AND SPEAKING
4. I can describe my ideal journey using *'Ich will nach Österreich fahren, um mein Deutsch zu verbessern. Ich möchte nach Holland fliegen, weil...'*.  
 WRITING
5. I can use a German website to make a holiday booking and a reservation for accommodation.  
 INFORMATION MANAGEMENT
6. I can understand texts in mostly familiar language related to events on holiday.
7. I can write a short text about a recent holiday, making good use of the perfect and the imperfect tense.  
 WRITING
8. I can research and produce, in collaboration with others, an advert/presentation promoting a holiday destination, real or imaginary, in German.  
 PRACTICAL

### Subject Focus: Out and About

1. I can talk about what I have bought for myself or others and ask others what they have bought, making good use of the personal pronouns in the accusative and the dative case, as well as the perfect tense e.g. *'Ich habe ihr einen Schal gekauft'*.
2. I can discuss what there is to do on a particular day/time using vocabulary such as *'Was gibt es zu tun? Es läuft ein guter Film im Kino. Es gibt ein interessantes Judoturnier, ein wichtiges Fußballspiel'*.
3. I can arrange a meeting with other people showing consolidation of time phrases, places, occasions, prepositions, transport e.g. *'wollen. Treffen wir uns um...am/an der...'* and of simple language of negotiation e.g. *'willst du, möchtest du...?'*.  
 EXPRESSIVE LANGUAGE
4. I can discuss with others how to get to social venues and what I and they intend to wear e.g. *Was trägst du?'*
5. I can consolidate my use of expressions of transport, clothes, colours, adjectives etc.  
 LISTENING AND SPEAKING
6. I can describe a recent social occasion and ask others about social occasions they have attended using language in the perfect and imperfect tense.  
 LISTENING AND SPEAKING
7. I can understand straightforward texts in mostly familiar language about social events and social media.
8. I can write a short text about a recent social event that I attended.

### Subject Focus: Healthy Living

1. I can say if I am unwell and what is wrong with me, using more complex language.
2. I can fluently talk about how I feel and I can fluently ask others how they feel, making good use of vocabulary related to the topic.
3. I can make an appointment with a doctor or dentist.  
 LISTENING AND SPEAKING

### Subject Focus: Technology

1. I can discuss different types of social media with others using the language of social media e.g. *'posten, kommentieren, der Beitrag, über Facebook kontaktieren, auf 'Twitter' sein, jdm auf 'Twitter' folgen, Soziale Medien sind nützlich'*.
2. I can recognise basic German 'text speak', such as 'LG'.  
 INFORMATION MANAGEMENT
3. I can use an online German-English dictionary effectively.  
 INFORMATION MANAGEMENT
4. I can understand basic texts related to the use of the internet and media.
5. I can write about how I use technology in my life showing consolidation of modals, 'wollen, sollen, müssen, dürfen, mögen, können'.
6. I know how to subscribe/register on a German website and/or newsletter.  
 DIGITAL MEDIA
7. On my own, or in collaboration with others, I can upload my language class profile in German, in order to make contact with other learners of German worldwide.  
 MANAGING LEARNING
8. I am able to use technology easily to connect and communicate, in German, with other learners of German or native German speakers and appreciate their different cultures.  
 SELF AWARENESS

### Subject Focus: Social Issues and Young People

1. I can understand texts in mostly familiar language about social issues and young people *such as problems amongst family members, problems at school and unemployment e.g. 'Probleme in der Familie, Probleme in der Schule, Arbeitslosigkeit'*.
2. I can use language to respond appropriately to such issues and situations *e.g. 'Ich verstehe mich nicht gut mit meinem Bruder, Ich finde meine Mitschüler/innen unfreundlich, Ich habe Angst, dass ich keine Arbeit finde'*.

### Subject Focus: Food and Drink

1. I can ask for a table and a menu and can order food and drink at a restaurant or at a cafeteria and can converse easily about food.  
 LISTENING AND SPEAKING
2. I can describe/talk about tastes *e.g. 'Diese Suppe ist salzig; Dieser Kaffee ist zu stark'*.
3. I can comment about food, to give praise or to make a complaint *e.g. 'Der Kaffee ist lauwarm; Diese Nudeln sind zu weich'*; consolidating the use of adjectives.  
 LISTENING AND SPEAKING
4. I can write brief responses in German to situations/ simple dialogues/ short passages/ brochures/advertisements on topics related to restaurant services using the present and past tense correctly.  
 WRITING
5. I can speak in a manner that can be understood by a native speaker accustomed to dealing with foreigners on topics related to hotel and restaurant catering services.

# LEVEL 10

## Subject Focus: Introductions

1. I can respond appropriately and accurately within a variety of situations when meeting others using polite forms of address, *such as the appropriate use of 'Sie'*, with the correct verb ending and synthesise more complex requests and commands.  
 LISTENING AND SPEAKING
2. I can fluently introduce persons to others.  
 LISTENING AND SPEAKING
3. I can talk about part-time jobs confidently.
4. I can talk about my student-job experience with others; use vocabulary and structures related to jobs/professions showing consolidation of numbers, opinions, adjectives, consolidation of regular and irregular verbs and modal verbs with a measure of confidence and fluency *e.g. Ich habe letztes Jahr als Kassierer-in in einem Supermarkt gearbeitet. Dieses Jahr möchte ich bei einer Firma arbeiten.*  
 INTERPERSONAL
5. I can discuss pocket money and spending habits with others confidently, using 'kaufen, verdienen, ausgeben, gehen in/zu, einkaufen'.  
 LISTENING AND SPEAKING
6. I can show confident use of language of likes, dislikes and preferences and use pronouns in the accusative and dative cases confidently *e.g. 'Es gefällt mir (nicht)'*.
7. I can write a text about my pocket money/my part-time job, describing what I do to earn money and what I spend it on.
8. I can confidently use language and vocabulary which has to do with household tasks.
9. I can use prepositions and expressions of purpose *e.g. 'Um mein Taschengeld zu verdienen, muss ich ...'*  
 WRITING
10. I can say what I would like to do when I leave school and ask others about their career intentions using particular vocabulary *e.g. 'Ich möchte...werden, Ich will bei einer Firma arbeiten'*.  
 INTERPERSONAL
11. I can confidently say what subjects I need to study for my chosen career and ask others what subjects they need to study *e.g. Ich möchte als Arzt /Ärztin arbeiten.*  
 EXPRESSIVE LANGUAGE
12. I can talk about different personal characteristics to describe myself and ask others about their own characteristics, describe working hours and provide some information about my job *e.g. Ich arbeite täglich von 9 bis 12. Ich würde gern am Nachmittag arbeiten.*
13. I can use work related vocabulary, expressions and adjectives *e.g. 'arbeiten als ..., Ich mag die Arbeit im Team sehr gern'. 'fleißig, höflich', 'Das war ein anstrengender Tag'*.  
 LISTENING AND SPEAKING
14. I can understand texts about issues related to different types of careers.
15. I can use adjectives related to skills *e.g. 'organisiert, logisch, zuverlässig, fleißig'*.  
 READING AND UNDERSTANDING
16. I can write about my own skills and interests in view of a future career/job; write a letter of application for work and a C.V and use phrases *such as 'Ich interessiere mich für' + accusative.*

 COGNITIVE LEARNING

17. I can research, prepare and present a presentation about a particular career; show increasing sophistication in language use *e.g. complex sentences; wider use of connectors: 'was/dass', and conjunctions: 'weil, obwohl'* with increasing accuracy and use indirect object pronouns *e.g. 'Ich will mit Ihnen sprechen, Es scheint mir als ob'*.

 MANAGING LEARNING

### Subject Focus: The Calendar

1. I can converse confidently about the weather and any special occasion that I can relate to, by using expressions and prepositions of time, as well as the right tense.

 EXPRESSIVE LANGUAGE

2. I can talk and write about the different cultural and traditional aspects regarding feasts and other special occasions using basic vocabulary *e.g. 'Weihnachten in Malta/ Deutschland; Ostertraditionen'*.

 LEARNING TO DO

3. I can listen to a detailed weather forecast in German and understand it with ease.

 LISTENING AND SPEAKING

### Subject Focus: Describing others

1. I can use language very confidently when describing myself and when describing others with respect.

 EXPRESSIVE LANGUAGE

2. I can use language creatively and appropriately to produce verbal and written descriptions about others, without being disrespectful *e.g. I can describe a person to the police.*

 LEARNING TO LIVE TOGETHER

3. I can listen to a description of a person or persons in German and understand it with ease.

 READING AND UNDERSTANDING

### Subject Focus: School

1. I can make myself understood when talking/writing about the Maltese school system; I understand the German school system; I can make a digital presentation about the two different school systems and I can talk about and compare them.

 COGNITIVE LEARNING

2. I can listen to native speakers of German and understand them very well when they talk about school in Germany.

 LISTENING AND SPEAKING

3. I can ask more complex questions about the German school system.

 CREATIVE LEARNING

4. On my own or in collaboration with others, I can write a formal letter to the head of school giving him/her suggestions on how to improve the school environment, making some use of the conditional tense *e.g. 'Es wäre nicht schlecht, einige Biotonnen auf den Hof zu stellen'*.

 LEARNING TO LIVE TOGETHER

### Subject Focus: Opinions

1. I can talk fluently about what I like and dislike.

2. I can fluently converse with others about their likes and dislikes and ask related questions, while appreciating and respecting different ideas and/or perspectives.

 COMMUNICATING FOR DIVERSITY

3. I can write formal letters, *such as recommendations and complaints*, to express my likes and dislikes while giving reasons.

 WRITING

### Subject Focus: Home and Home Area

1. I can say what I do to protect the environment and ask others what they do.  
 LEARNING TO KNOW
2. I can use more extensive vocabulary related to geographical features, *such as 'der Teich, der Gletscher, der Ozean'*.
3. I can use more extensive environment vocabulary and expressions *such as 'genverändert, Genpflanzen, erneubare Energie, die Sonnenenergie, die Klimaänderung'*.
4. I can understand texts in familiar language which also contain some more challenging vocabulary about environmental issues in my country and in other countries.  
 LEARNING TO KNOW

### Subject Focus: Holidays

1. I can understand a text on different holiday destinations.  
 READING AND UNDERSTANDING
2. I can understand more challenging texts in mostly familiar language about holidays abroad.
3. I can talk about a past holiday(s) and understand others when they talk about past holidays showing a clear understanding and demonstration of when to use the perfect and imperfect tense *e.g. with 'haben', 'sein' and modals*.
4. I can discuss, both verbally and in writing, the advantages/disadvantages of different types of travel showing a consolidation of language using conjunctions, adjectives and comparisons, including superlatives.  
 PERSONAL LEARNING
5. I can use the conditional tense (*wäre, hätte, möchte, würde / Infinitiv*) to talk about places where I would like to go on holiday *e.g. Ich würde gern nach Deutschland fahren, Ich hätte gern viel Geld, um eine Weltreise zu machen*.
6. I can describe my ideal journey showing confident use of adjectives related to time and quality *e.g. 'bequem, schnell, von guter/schlechter Qualität, die Atmosphäre'*; and use of the conditional *e.g. 'Ich würde...; Ich hätte es gerne'*.  
 LISTENING AND SPEAKING
7. I can understand more challenging texts with familiar and less familiar language related to events on holiday.
8. I can write a text about a recent holiday, making good use of the required past tense verbs.  
 WRITING

### Subject Focus: Out and About

1. I can confidently discuss what there is to do on a particular day/time and am able to draw on vocabulary related to a range of leisure interests.
2. I can arrange a meeting with other people showing use of more complex language of negotiation *e.g. 'Wenn wir nach Dresden + subjunctive. Wie wäre es mit...? Wie wär's, wenn wir...?'*.  
 EXPRESSIVE LANGUAGE
3. I can discuss with others how to get to social venues and what I and they intend to wear, showing an extension of expressions related to transport and clothes, with consolidation of the conditional tense and of relative pronouns *e.g. 'Ich hätte lieber', 'Mir gefällt das Hemd, das bunt ist. 'Ich weiß nicht, was ich tragen muss'*.  
 EXPRESSIVE LANGUAGE
4. I can describe a recent social occasion and ask others about social occasions they have attended using language in the perfect and imperfect tense *e.g. 'Was ist dir passiert? Was geschah am...? in diesem Moment, Wer ist angekommen? während des Tages, am Abend'*.  
 EXPRESSIVE LANGUAGE
5. I can understand less straightforward texts in mostly familiar language about social events and social media.
6. I can write a more involved and detailed short text about a recent social event that I attended.

### Subject Focus: Healthy Living

1. I can fluently say if I am unwell and what is wrong with me, using descriptive language.
2. I can fluently converse with others about my lifestyle and any allergies/illnesses and I can fluently ask others questions related to the topic.
3. On my own, or in collaboration with others, I can carry out research about healthy foods and present my findings in German.

INFORMATION MANAGEMENT

### Subject Focus: Technology

1. I can talk about technology that I use in my daily life and ask others about the technology they use.
2. I can talk about internet sites I use for leisure and school work and ask others about sites they find useful/entertaining using more advanced language structures and vocabulary.
3. I can write about how I use technology in my life and write a text about technology and its use in daily life, both from a personal and professional point of view using complex sentences and showing flexible use of language, mostly accurate language.
4. I am able to use technology very easily to connect and communicate quite fluently, in German, with other learners of German or native German speakers, and appreciate their different cultures, perspectives and opinions.

DIGITAL MEDIA

### Subject Focus: Social Issues and Young People

1. I can discuss social issues and young people *such as problems amongst family members, problems at school and unemployment, e.g. 'Ich verstehe mich nicht gut mit meiner Mutter, weil sie mir kein Taschengeld gibt. Ich habe keine richtige Freundin in der Schule, da alle Mitschülerinnen sich nur für Kleidung und Make-up interessieren. Ich habe Angst vor Arbeitslosigkeit, denn ich möchte selbstständig sein.'*

### Subject Focus: Food and Drink

1. I can understand texts related to healthy food and food in German-speaking countries.  
 LISTENING AND SPEAKING
2. I can write complaints about topics related to catering services in hotels and/or restaurants.  
 PLANNING AND REFLECTION

# Pedagogy

## A. PEDAGOGY AND GOOD PRACTICE LEARNING

Educators need to keep up-to-date with the latest pedagogical strategies and concepts in order to be able to better understand and respond to learners' needs. Europe's *Education and Training 2020* strategy puts special emphasis on the teachers' role in the lives of their learners. Teachers play a crucial role in guiding their learners towards their goals and shaping their perceptions (European Commission, 2015).

The educator of German must ensure that the adopted methodology provides learners with the opportunity to broaden their experience of learning and expose them to the language far beyond that of the classroom.

As pointed out in the National Curriculum Framework (Ministry for Education and Employment, 2012), programmes of learning and the standards of assessment and examinations are to be based on the learning outcomes of the National Curriculum Framework and the subsequent Learning Outcomes Framework.

Learning outcomes help educators and learners organise their teaching and learning, and provide a learner-centred approach to language learning (Ministry for Education and Employment, 2012). Given that learning outcomes are statements that indicate what learners will have gained as a result of the learning process over a period of time, educators who are involved in the teaching of German need to ask the following questions:

- How do the learning outcome statements help learners achieve proficiency in the language?
- Are the learners engaged in learning through a variety of tasks?
- How authentic are the tasks?

The teaching and learning methodologies used must cater, first and foremost, for the learning diversity, interests, strengths and limitations of the learner. One of the main key factors is to create a learning environment which is conducive to all learners by primarily:

- Identifying the learners' interests and learning styles.
- Providing support when and where needed.

Research in cognitive psychology indicates that in the learning of foreign languages, the procedural knowledge (the different ways of learning a language) is as important as the declarative knowledge (the knowledge of the principles of the language itself). It is for this reason that it is recommended that time is dedicated to helping learners become aware of learning strategies. Such strategies will furthermore help learners find pathways of learning and to become in their learning.

### Learning to Learn Strategies

The following are examples of the strategies which form part of the 'learning to learn process', one of the eight competencies featured in the document *European Reference Framework Key Competencies for Lifelong Learning* (European Commission, 2007):

- Pedagogical discussions between learners where, on a voluntary basis, learners explain how they carried out a specific task and how they managed to overcome the difficulties encountered, resulting in an exchange of strategies and techniques in a cooperative environment.
- Teaching learners to make use of punctuation marks, pictures, additional information outside the text, such as accompanying explanation of difficult keywords and identification of keywords during reading/ comprehension tasks.
- Teaching and guiding on the different stages of essay writing and the different tools and methods which could be adopted during each stage.

### Overview of the subject

German is primarily a tool for communication and learners need to develop the language skills required to communicate with others in the language. The language skills required to be able to communicate in German should be developed in an integrated manner, reflecting their use in real life situations. For this reason, educators and learners should use the target language during classroom interaction. As much as possible the classroom should become a German-speaking environment.

Learners need to develop the skills of talking, listening, reading and writing to enable them to understand and communicate with others in real life situations and contexts. Reference to the mother tongue and other languages which the learners are familiar with, raise learners' awareness of similarities and differences that aid language learning.

Educators should seek to make good use of relevant, high quality and challenging resources that exist on a wide range of themes and, where possible, introduce the Cross Curricular Themes through careful selection of resources. Learning strategies need to include a high proportion of opportunities for learners to take an active part in their learning. Plenary activities and sessions in class where educators address issues or learning content with the whole class form part of the teaching and learning approach.

Lesson planning should incorporate the use of ICT to enhance learning and bring the German-speaking world into the classroom. The use of ICT in the language class is intertwined with the acquisition of digital literacy skills.

Learning German will also help raise awareness of other cultures and can help introduce different cultural perceptions and beliefs as well as shared practices. This will allow learners to appreciate the views of others while also understanding how their own views operate within a wider context. The Cross Curricular Themes raise awareness of similarities and differences across cultures.

Educators are to guide learners to engage in the language learning process and thus pedagogy ought to be open to forms of learning within which learners collaborate and learn interactively with and from each other. Teaching and learning ought to include activities which are enjoyable and of interest to learners to help them learn the language through their own preferred learning styles and to gain insight into various modes of learning. The use of IT and project work are encouraged and are embedded within the teaching and learning approach. The use of individual, pair and group-work activities help learners gain language awareness through individual and interactive activity. Such a teaching and learning scenario utilises various forms of tasks which enable learners to explore various aspects of the language through different resources and materials. Exposure to authentic language in class through videos and information technology ensure a rich teaching and learning experience.

Formal and informal learning experiences contribute to the teaching and learning scenario and enhance in and out-of-class learning through the use of texts (listening and reading), exposure to target-language speakers and authentic material amongst others. Learning is not only envisaged as the result of classroom activity. Learners are consequently encouraged to contribute to classroom learning through informal learning activities and tasks performed beyond lesson time.

### Using the German SLOs

Careful choice of particular text can help draw together a number of different SLOs from various subject foci in German. For example, writing an email invitation which could encompass:

- salutations
- use of days of the week
- use of vocabulary related to the home.

This helps learners target a number of outcomes at various levels and offers them the opportunity to broaden their vocabulary.

The educator draws together language from various themes through the choice of particular text. This helps the learners consolidate the language addressed in these SLOs. Moreover, learners will be able to work on reading and writing skills across a number of themes.

Through a variety of texts, learners can address their needs at the level required through group based activities.

An example of a straightforward exercise is the blanking off of all the verbs in the perfect tense, giving only the infinitives to help learners fill in the verbs correctly and then focusing on a key vocabulary topic and asking learners to identify related words. Next, the educator could focus on pronunciation by asking learners to highlight key graphemes and work out how unfamiliar words should sound. At a later stage, the same text could be used as the starting point for a dialogue (targeting speaking/listening skills) where the learner is invited to refuse or accept the invitation.

Careful selection of texts will also allow the educator to position the learning exercises in such a way as to invite learning, discussion and reflection on particular Cross Curricular Themes such as the Diversity CCT and Education for Sustainable Development CCT.

The Subject Learning Outcomes (SLOs) have been written in a way which helps educators to adopt engaging, enterprising and active learning approaches in a variety of contexts to promote and enable learner-centric teaching and learning strategies. Curriculum planners at all stages should regularly consider the opportunities presented by the SLOs to develop active learning throughout the levels in the Learning Outcomes Framework. Planning should be responsive to, as well as encourage participation by, the learner who can and should influence and contribute to the process.

To support curriculum planning and to ensure that all learners have access to an active, enterprising learning environment, a coherent approach to planning learning, teaching and assessment and to sharing information about progress and achievements is needed. In undertaking this type of curriculum planning, it is important not to see the SLOs as limiting factors containing the learning potential of learners and preventing any deviation of learning beyond that contained within the SLOs. This view fails to take into account the scope and flexibility provided by the learning outcomes approach. How, where and when the outcomes are taught and learned is at the discretion of the educator. The SLOs are there to demystify the assessment process by setting out straightforward learning expectations. In doing so, assessment is bound to evidencing the meeting of these same expectations.

Once the learning expectations are set educators can begin to introduce the flexibility in curriculum design and delivery that has been difficult to do up to this point. The learning outcomes approach allows educators to lean towards learner-centric teaching and learning strategies. This will mean knowing the many ways in which learners are different from one another, which of the many ways of learning are significant to the learning at hand and how to deal with this variance in ways that are supportive of the individual learners and allow them to progress. Section C: Reaching different learners within each level offers guidance on how this can be done.

## B. EMBEDDING THE DELIVERY OF THE CROSS CURRICULAR THEMES

Across Europe there has been a shift from an exclusively subject-based approach to a more cross curricular, thematic, inter-disciplinary and collaborative approach that reflects real life situations and encourages transfer of skills from one learning area to another. Through a cross curricular approach, many curricular areas have been given a higher profile and a number of transversal competences have enhanced their status (European Commission, 2012). The CCTs connect the subjects by highlighting common learning objectives which are also reflected at in the school ethos (Ministry for Education and Employment, 2012: 31, 39).

The Cross Curricular Themes (CCTs) have been introduced in the LOF to ensure that all learners, as they progress through the levels, come into continual contact with the types of knowledge, skills and understanding needed to participate actively, prosper and contribute to Maltese society.

The embedding of the CCTs in the Subject Learning Outcomes offers access to a new learning identity that goes beyond the subject; learners will value the CCT learning when they see that it is an integral part of the Learning Outcomes Framework and that it is vital in helping them become holistic learners.

Each CCT is presented as a set of additional learning outcomes that young people need to encounter and develop a knowledge and understanding of as they progress through the Learning Outcomes Framework.

### The Cross Curricular Themes are:

Digital Literacy

Education for Diversity

Education for Entrepreneurship, Creativity and Innovation

Education for Sustainable Development

Learning to Learn and Cooperative Learning

Literacy

The Cross Curricular Themes can be found in the Appendix and online at <http://www.schoolslearningoutcomes.edu.mt/en/category/cross-curricular-themes>

The CCTs need to be embedded within the learner's learning journey and experiences, the main point being that the CCT knowledge and understanding needs to be learned, consolidated and secured within a context. The context is important in order to add meaning and purpose and to reinforce the usefulness of the CCT. There is no one effective way of organising the embedded learning of the CCTs. However, directly linking a CCT outcome to an appropriate practical task within an SLO and then ensuring that there is an opportunity for CCT support at the time the practical task is undertaken is a particularly effective way of embedding a CCT.

Embedding is not just about interlinking different curricula. Mapping where the CCT content might fit in with SLOs or Subject Foci is only a starting point. The educator needs to establish how the CCT content adds value to the SLOs being taught and how something greater than just the sum of the different parts can be achieved. In essence, the CCT learning adds value in the establishment of key transferable knowledge, skills and understanding by starting with meaningful 'situated' engagements with the learning.

### Embedding as a process

There are three main ways to approach the delivery of the knowledge, skills and understanding addressed in the CCTs in the learning process. These are:

- through delivery of and the learning associated with the SLOs
- by choosing particular teaching methods and strategies over others to deliver the SLOs.
- undertaking specifically constructed cross curricular or whole school activities.

This process implies an important shift in the way teachers approach the teaching of the subject content in the classroom. Integrating the cross curricular learning outcomes in the teaching of separate subjects requires teachers to step outside their traditional boundaries and work in close collaboration with one another to develop their approach to the CCTs and to exchange information about the learning development of specific learners in relation to the CCTs (European Commission, 2012:25).

### Delivering CCTs through the SLOs

The first approach to the delivery of CCT content is by integrating the CCT learning with that of particular SLOs. The framework provides guidance on the best opportunities to do this. Where a particular SLO presents a good opportunity to address learning related to a Cross Curricular Theme a CCT icon appears after the SLO. This indicates that the SLO:

- creates a naturally occurring opportunity to begin to look at learning and skills development associated with a particular aspect of a CCT.
- can be enhanced or enriched by introducing a particular aspect of one of the CCTs.

To guide the educator to the specific learning outcomes of the CCT that are most relevant, the CCT icon which is attached to the SLO in question also includes a heading to identify which particular aspect of the CCT is the 'best fit', i.e. the part of the CCT content that is most closely linked to the knowledge, understanding and/or skills addressed within the SLO.

Although only one CCT has been identified this does not necessarily mean that other CCTs are not relevant. The identification of a particular theme merely suggests that the educator may find the one identified to be the most relevant, most appropriate or easiest to embed at that particular point, allowing the educator to teach the subject and the CCT in an integrated way.

Examples of this type of embedding in German include:

- I can make requests in the classroom and ask for help in German using *Darf ich.....?, Entschuldigung, haben Sie..., Ich habe ein Problem, Wiederholen Sie bitte!*

SOCIAL LEARNING

Taken from Level 7, Subject Focus: School

- I can talk freely about how to get to places in my country and ask others about different means of transport in their country/region.

LEARNING TO DO

Taken from Level 8, Subject Focus: Home and home area

- I am able to use technology easily to connect and communicate in German with other learners of German or native German speakers and appreciate their different cultures.

SELF AWARENESS

Taken from Level 9, Subject Focus: Technology

#### Example: Finding opportunities to address CCT learning in German SLOs

- I can research the life of a famous German-speaking person(s) in history/the media/sports, and create a short presentation about him/her/them.

COMMUNICATION

Taken from Level 8, Subject Focus: Introductions

A well-researched figure, well-presented using digital technology and a presentation software package, will help the learner demonstrate achievement of a range of outcomes associated with the Communication focus of the Digital Literacy CCT. Either in the German class or coordinated more widely across the curriculum, the learner should be given the opportunity to learn, develop and rehearse the skills associated with the learning behind the CCT outcomes. In developing these types of competence with Digital Literacy, the learner will be able to bring them to each appropriate SLO, enriching the learning process and improving their performance in demonstrating achievement of the outcomes.

CCT outcomes that are particularly relevant to this particular SLO include:

- I can communicate through a variety of digital devices and applications.
- I can adapt my communication modes and strategies according to the people I am communicating with.
- I can use different digital tools to share knowledge, content and resources.
- I can help others to share knowledge, content and resources.
- I know how to quote other people's work and to integrate new information into an existing body of knowledge.

#### Addressing CCTs through use of particular teaching methods and strategies

CCTs can be used to inform the creation of Language Departmental policies and strategies, for example, by deliberately structuring learning to maximise the use of digital technologies. At the departmental level the following CCTs may be particularly suitable to help inform the pedagogy choices and delivery styles selected to maximise the flexibility introduced by the LOF:

Learning to Learn and Cooperative Learning

Digital Literacy

Education for Diversity

Educators may find that the following CCTs have a role to play in the choice of topics to stimulate interest and debate:

-  Education for Sustainable Development
-  Education for Entrepreneurship, Creativity and Innovation.

It will become evident that some of the CCTs are naturally suited to particular learning and teaching styles. Section C *Reaching different learners within each level* provides guidance on how particular CCTs can equip learners to thrive in particular learning environments. Deliberately choosing particular teaching strategies involving active and/or experiential learning and problem solving approaches where a certain degree of learner autonomy as well as team work is required will help frame learning in ways conducive to the introduction of the Digital Literacy and Learning to Learn and Cooperative Learning CCTs.

For example, the Learning to Learn and Cooperative Learning CCT comprises a category of learning outcomes on Personal Learning and, by addressing the learning related to this category of the CCT, learners will be developing the learning skills to bring to any task where a degree of autonomy and self-management is required. Similarly, the Social Learning category within the same CCT can help learners develop a framework of skills, attitudes and behaviours that will help them make the most of group or team work and other social learning strategies.

The Digital Learning CCT will help learners develop the competencies related to managing learning, sourcing, manipulating, communicating and presenting information. Having these types of learning skills embedded in the learning before they are most heavily used or required will help the learner approach the tasks with greater confidence in both the process of learning about SLOs and in demonstrating achievement of the outcomes themselves.

#### Addressing CCTs through cross curricular or whole-school activities

All the CCTs can be used as whole-school strategies for creating a high quality learning environment that values all learners and sets high expectations for all. Schools may see the benefit in having whole-school policies on the advancement of:

-  Literacy
-  Digital Literacy
-  Education for Diversity
-  Education for Sustainable Development

These types of CCTs can be used to help inform whole-school policies as well as add real value to the learning within the classroom. However, other CCTs may be used to form the basis of whole Year Group activities, or wider all-learner school initiatives around environmental issues. For example:

- The Education for Sustainable Development CCT could be used to form the basis of whole-school extra-curricular activities related to the Eko-Skola type of initiatives or low energy use initiatives. Fundraising activities to help with a school pursuit of renewable energy sources might bring together learning from this CCT with that of the Education for Entrepreneurship, Creativity and Innovation CCT.
- The Education for Entrepreneurship, Creativity and Innovation CCT could be used to underpin the learning and experiences associated with activities ranging from a 'learner-owned' tuck shop to a school event or whole-school initiatives about the world of work.

## C. REACHING DIFFERENT LEARNERS WITHIN EACH LEVEL

One of the benefits of working within a Learning Outcomes Framework (and at the same time one of the challenges) is the ability to allow learners to progress at their own speed and to be able to adapt the teaching methodology and curriculum to meet their learning needs. The SLOs clearly show where the learning ‘finish line’ is at each level for each learner but educators need to acknowledge and plan for those learners who will reach this point quicker than some and also for those who may need more time and more scaffolding to be able to get to the standard required.

The Subject Foci are not rigid or restrictive and do not have to be delivered in a particular sequence or as discrete content areas taken in isolation. Subject Foci can be overlapped and blended into larger (or smaller) learning programmes. Educators may prefer to approach the learning contexts in a different order depending on the situation, or to deliver aspects of the learning through preferred topics.

### Diversity of learners

The NCF embraces diversity and requires that this be promoted through an inclusive environment.

The NCF addresses the needs of:

- gifted and talented learners for whom the process of learning needs to be sufficiently challenging to engage and motivate them to develop their talents.
- learners with special educational needs for whom the curriculum should be written in a way that allows the teachers to appreciate how every student can access the same curriculum in every learning area and allows for the assessment of a continuum of ability.
- learners with severe disabilities for whom the curriculum should offer an education based on a continuum of abilities expressed in terms of developmental phases.
- learners from disadvantaged social backgrounds for whom the school, in collaboration with key local and institutional stakeholders in the community, needs to up-skill and support families and the local community to provide an environment that is educationally rich and stable.
- learners from diverse social, cultural and linguistic backgrounds including children of refugees and asylum seekers for whom the curriculum should include access to an educational programme which is embedded within an emotionally and psychologically supportive environment that respects their individual circumstances.

*A National Curriculum Framework for All, Ministry for Education and Employment (2012:41)*

The language examples provided in the SLOs are not restrictive and the educator should expose the learner to a wide range of vocabulary. Educators may also wish to add other vocabulary or verb selections to the ones suggested that fit well with any changes which they wish to make in the delivery, e.g. specialist language that suits a particular context or topic that is being used. Where an SLO refers to texts, the word ‘texts’ refers to both written and oral/ audio texts. This applies to all levels and subject foci. The examples provided are the suggested minimum language levels required to perform proficiently at that level, while also accepting that learners achieving lower levels of proficiency may still be considered as being capable of achieving communicative competence.

All classrooms, even where setting is used, will comprise a range of abilities. This is because learners will have different strengths and limitations and will develop at different rates. To define a 'mixed ability' class simply as a group of learners with a range of abilities is overly simplistic. What about the range of learning styles and preferences, interest levels and home backgrounds, which all impact on the learning experience? Each learner will show strengths at different times depending on the topic being studied and the learning style being used. When they are outside their learning comfort zone they will perform less well. It is unrealistic to expect any group of learners, whatever their ability, to progress through a body of work at exactly the same pace. Two thirds of learners in a classroom will be working outside their learning style unless the task is varied.

One of the most effective ways to ensure that different learners are reached within each level and throughout the LOF is to teach learners to think for themselves. Some of the CCTs provide the toolkit of knowledge and skills for learners to be able to become more effective, resilient, resourceful and autonomous learners.

#### **Progression and differentiation in learning**

The principles of diversity and inclusion which underpin the NCF imply that at all stages learners of all aptitudes and competences should experience success, challenge, and the necessary support to sustain their effort. They need flexible learning programmes providing diverse learning experiences that cater for a wide spectrum of learners and allow for different rates of progression as children and young people work through their school years. Different approaches are needed to address different learning needs. With the focus increasingly on the learner, and with more mixed-ability classes in schools, differentiated approaches are becoming more important and teachers need to adopt strategies that build on children's and young people's previous learning and help them progress.

*A National Curriculum Framework for All, Ministry for Education and Employment (2012:40)*

#### **Strategies for teaching a mixed ability class**

The teacher in the classroom must start by making a connection with each learner in their classes on a personal level by knowing and using their names and getting to know what interests them. Incorporating areas of interest into the learning can be a good way to engage learners. Similarly, using this type of knowledge when setting homework or individual class work can be a useful motivator and may help keep learners engaged.

#### **Personal Learning:**

- I can identify the support and resources I need to learn.
- I am aware of my preferred way to learn and can use this to plan my own learning.
- I manage goals and time efficiently in learning.
- I feel competent in managing my own learning.
- I am open to feedback from others and am able to consider it.
- I reorganise myself by explicitly changing my assumptions over time.
- I am able to follow my own interests as this helps me to reflect on 'who I am'.
- I am pleased when I succeed at difficult tasks.

Taken from the Learning to Learn and Cooperative Learning CCT

### Ways to empower learners and make them more able to thrive within the LOF

Create a dynamic learning environment by:

- managing the classroom and creating opportunities for learners to work individually, in pairs and in groups.
- changing the layout of the classroom to match the learning taking place.
- providing a choice of differentiated activities, allowing learners to select their level of engagement and challenge. This will help with the 'ownership' suggestion listed further down.
- using carefully selected and differentiated resource banks.
- presenting different ways to learn the same thing.

Engage learners by:

- creating a sense of learner ownership of the learning process by, for example, allowing learners to choose their own project.
- allowing learners to demonstrate their understanding in different ways, for example through self-selected means, be it a visual representation, an oral presentation or physical demonstration.
- building in the higher order thinking skills using Bloom's taxonomy (at all levels) and working with the SLOs to keep learning tasks interesting, providing useful stretch and challenges as SLOs are given added dimensions or are approached from different directions. This can be done by giving learners problem-solving tasks with the opportunity to transfer and apply their knowledge to a new context.

Turn learners into resilient learners by:

- at an early stage introducing the learners to the key learning strategies encompassed by the Learning to Learn and Cooperative Learning CCT.
- discussing the learning objective in each lesson with learners, making them aware of what they are expected to achieve by the end of the lesson. The SLOs (written in the first person) are directed at the learner.
- making learners aware of different learning styles; teaching learners techniques for learning new content using visual, auditory and kinaesthetic modes of learning and varying teaching strategies to cater for visual, auditory and kinaesthetic learners.
- teaching learners how to be less dependent on the teacher. For example, how do they get themselves 'unstuck' if they are stuck?

Use group work to:

- allow for reinforcement and extension (by using flexible groups).
- encourage learners to engage in Social Learning and to appreciate diverse viewpoints and personalities; build confidence in discussing their views with others; collaborate with other learners as part of their learning; seek out guidance and support from other learners; talk with others about learning; listen to others talk about learning and discuss various subjects and learning strategies with peers (by using mixed ability groups).

**Example: German group work**

Activities which engage learners in pair work or group work, such as the information gap activity below, form part of the approach.

Divide the class into pairs, sitting with their backs to each other. The educator must make sure each pair is close enough to be able to hear one another. One of the learners is given an image and must describe this image in German to the other learner without showing the image provided by the educator. The other learner must draw the picture whilst being allowed to ask questions for clarification.

The level of German utilised during this exercise is determined by the complexity of the image chosen by the educator. This allows the educator to work with learners of different language abilities within an LOF level, or to repeat the same exercise across different levels. The learner who is drawing is allowed to ask as many questions as deemed necessary while the learner holding the image has to be as helpful as possible.

Introducing time limits and competition between teams can help add motivation. Students may work in groups with one learner describing the image and two or three learners asking that learner questions to reproduce the image. Key here is that the learners who are drawing the image cannot see the others' drawing.

Adapted from an idea in *The Teacher's Toolkit* by Ginnis (2008)

An inclusive approach to teaching and curriculum planning needs to be ensured. While the school will want to create an ethos of achievement for all learners, valuing a broad range of talents, abilities and achievements, the teacher will need to work out what that means in their classroom. At a basic level this starts with promoting success and self-esteem by taking action to remove barriers to learning, thus making sure that all learners in all groups thrive in the classroom. Teachers can overtly promote understanding and a positive appreciation of the diversity of individuals in their class and use the Diversity CCT as a catalyst for this approach extending it to include the learner directly.

**Values- based education**

Education is as much about building character as it is about equipping students with specific skills. The way forward for the implementation of the framework is through values-based education. Values-based education refers to any explicit and/or implicit school-based activity which promotes student understanding and knowledge of values and which develops the skills and dispositions of students so they can enact particular values as individuals and as members of the wider community. It ensures that those leaving school should have qualities of self confidence, high self esteem, optimism and commitment to personal fulfilment as a foundation for their potential life roles as family, community and employees. Furthermore they should have the capacity to exercise judgement and responsibility in matters of ethical and social judgements.

Adapted from *Respect for All Framework*, Ministry for Education and Employment (2014:10)

Schools should have a vibrant and progressive culture, promoting well-being and respect, with ambition and achievement for all learners as its focus. This type of approach needs to be taken in each classroom. A great school is a caring school that supports every single person, irrespective of background or learning need. Such schools work in an atmosphere of unconditional positive regard. They work tirelessly to promote healthy and productive attitudes to learning, to life and to work. Developing an ethos of achievement and ambition defines the aspirational nature of successful schools, making the connection between expectation and success - success which covers all aspects of developing skills for life, for work and for learning - a hallmark of excellence.

From the perspective of the classroom, an inclusive approach addresses learners' needs through a variety of approaches including: early intervention strategies and a curriculum and approaches to learning and teaching which are designed to match the needs of all learners. Educators should have high expectations of their learners because they need to be encouraged to have high aspirations and goals for themselves. It is imperative that educators ensure that their learners know where they are in relation to their learning and how they can improve. Learners should be praised regularly, selectively and effectively to keep motivated.

Learners need to understand what being an effective learner of German entails. Learners also need an awareness of social, cultural and geographical aspects of the German-speaking countries or areas. Furthermore, knowledge about language structures is required to allow the learners to check the accuracy of their language use, create new language and communicate in relevant and realistic contexts.

As learners progress within the levels and between levels they should be encouraged to reflect on, take increasing ownership of and assume more responsibility for their own learning. Educators should start to introduce techniques to allow learners to make increasingly greater use of self-assessment to identify their strengths and development needs from the evidence of their efforts and act on feedback given from peers as well as educators in order to plan their next steps.

The SLOs are set out against Levels 7, 8, 9 and 10 and represent the appropriate level of proficiency at each level but these should not impede further achievement. Educators should expect learners to demonstrate increased progression as they move through levels by:

- Demonstrating increasing independence and less need for support, including peer or educator support, and support through wordlists and dictionaries.
- Working with increasing length and complexity of text and task in listening and reading.
- Demonstrating increasing length, complexity and accuracy of response in talking and writing.
- Acquiring new vocabulary and language use (personal, transactional, language related to the world of employment and to the culture of the German-speaking regions).
- Developing increasing awareness of language rules, including knowledge about language.
- Demonstrating increasing confidence in sustaining communication.

The educator can gather evidence of progress as part of day-to-day learning during individual and collaborative activities. This may be achieved by engaging the learners in relevant conversation or correspondence with peers and adults about people, places and daily life; as well as through talks, writing assignments and putting together presentations, with the help of ICT. Specific assessment tasks enable the educator to assess progress. Assessment should identify the extent to which learners can apply these skills in their learning and their daily lives and in preparing for the world of employment. For example:

- How well do they contribute to discussions?
- Are they increasingly able to extract key information from texts?

Assessment of progress in German involves making judgements about the success of learners in extending and using their vocabulary, increasing their comprehension of the written and spoken word, developing their understanding of language structures and rules and applying these accurately in familiar and new real life situations, including in social contexts or in giving instructions or directions. For example, they:

- Communicate with increasing confidence, accuracy and fluency.
- Demonstrate their enthusiasm and motivation for modern language learning and developing cultural and international awareness through their responses.

## D. TEACHING DIFFERENT LEVELS WITHIN ONE YEAR GROUP

There will be learners within each class that need more time to be able to achieve the learning needed to demonstrate achievement of the SLOs. As learners progress through their learning journey they may move to a new year and start a new level but still have areas of unsecured learning from the previous level. The first important factor here is clarity of information on progress following this learner that makes it clear to their new teacher what support or additional work they may need to ensure that they can progress on to the new level.

**Section C** *Reaching different learners within each level* referred to the use of a range of strategies designed to respond to the different learning preferences of each learner. Where learners are entering the class in need of support to secure some aspects of the previous level it is important that:

- there is clear information about where the areas in need of support are.
- it is clear how these areas relate to progression and achievement in the new level.
- there are a range of strategies and learning devices available to match the learning style to the learner preference to assist with early progression.
- conversation with the learner about areas in need of support or reinforcement remains positive, learner-affirming and constructive.

One of the benefits of the LOF structure is that Levels 7 and 8 are delivered across two-year curriculum windows allowing time to develop learning programmes and deploy a range of learning methods to help learners progress and achieve.

There are a few models to consider when looking at introducing a measure of stretch for learners able to achieve SLOs well within the delivery time associated with the level. Educators may want to consider:

- exploring the SLOs in a broader and/or deeper way, perhaps looking to transfer or apply learning associated with the SLOs in new contexts.
- using more exacting or challenging texts.
- adding stretch by setting more challenging or complex tasks which exposes the learner to more challenging texts and vocabulary or introduces new Subject Foci or new areas of existing Subject Foci, remembering that the SLOs do not set a ceiling on the learning.
- looking at opportunities offered by the CCTs as sources of inspiration for introducing new areas of content to provide additional curriculum content that both enhances the subject learning experience and looks at CCT content in perhaps different or more challenging ways.

One other key source of material related to provision of additional challenge or stretch is the Subject Foci and SLOs from the level above. While it may not always be appropriate to begin to address these directly, educators may want to look at the contextual learning or preparation work that serves as a good introduction to learning at the next level. The focus here is on looking at the bridges between the learning in each level and how the learner can begin to access this learning. In this type of approach, as with the other areas of extension work, it will be important to keep a proper record of achievement to be able to inform teaching staff working with the learners when they move formally to the next level.

Although the above suggestions will help educators address the challenges of differentiation, it is nevertheless acknowledged that it is hard to implement differentiated instruction in a heterogeneous classroom, especially if educators are not supported or they do not know what they are differentiating – the curriculum or the instructional methods used to deliver it. It is hence important to give teachers clear guidance and support on what they need to do to differentiate instruction and be responsive to the needs of each learner by taking into account what they are teaching and who they are teaching. Time should also be factored in for teachers to assess their learners' needs, interest and readiness levels and to plan and design appropriate activities for each learner. These concerns can be addressed through effective professional development that strongly encourages teachers to apply their skills and which provides coaching throughout the process of using differentiation as a teaching approach.

## E. TEACHING ONE LEVEL ACROSS TWO YEAR GROUPS

Within the LOF, Levels 7 and 8 have an added additional layer of challenge in curriculum planning and design in that both levels run across two different years. For example, Level 8 SLOs sit across Years 9 and 10. This means that educators need to consider how they might want to structure the delivery programmes needed to achieve the SLOs that will allow learning to take place in a meaningful and coherent way across two years that capitalises on any progression opportunities within the level. However, this wider window to reach the standard of a level also helps deal with some of the challenges discussed in the previous chapter.

When looking at the content shaped by the SLOs within a level, educators may be able to identify SLOs that are considered to be prerequisites for others in the same level and structure the curriculum accordingly. Some Subject Foci may naturally be delivered before others or educators may look to design and implement a curriculum that has more of a spiral curriculum progression feel to it. Educators may even feel that there are different ways to work with the Subject Foci, wrapping them up and addressing the SLOs by creating new subject areas incorporating the Subject Foci.

Alternatively, educators may feel more comfortable starting with some generic language teaching that underpins a number of different Subject Foci, or that predominantly focuses on two skill areas (such as speaking and listening) early on, to help build confidence and create a better foundation for other learning. The decision on how best to approach the Subject Foci and the SLOs within the Subject Foci is essentially a local one. It is up to the educators to use their professional judgement on how best to do this, based on their learners' needs, their preferred way of structuring the curriculum and the types of resources they intend to work with.

There are at least three obvious potential approaches that educators may wish to consider:

- Developing a period of ground work or preparation style learning before proceeding on to the curriculum directly associated with the SLOs.
- Developing a developmental approach across the existing SLOs where some suitable Subject Foci and corresponding SLOs are addressed before others with these supporting the learning of the SLOs to be covered in the second year.
- Developing a curriculum and learning programme approach that exhibits a mixture of the above two approaches.

There are also the more ambitious approaches where the Subject Foci and SLOs are absorbed into a more locally designed approach that may meet the strengths and interests of the staff and learners in a better way. Educators have the freedom to decide if there is a more integrated way to deliver and learn the subject. The LOF allows educators this measure of control and innovation to the benefit of their learners. Whichever the method selected, curriculum planning, resource selection and the selection of teaching strategies will all be important.

# Assessment

## A. METHODOLOGIES THAT WILL ENSURE FIT FOR PURPOSE ASSESSMENT

Assessment in German should be carried out in order to:

- better understand the German language learning process.
- determine the ability of the learner to use German for a variety of purposes.
- determine and consolidate the learner's ability to make use of the four different skills (listening, speaking, reading and writing).
- identify and determine difficulties which the learner may experience.
- help the teacher to gather information about the learner's language development over a period of time.
- guide and improve the learner's performance.
- help the teacher to provide the learner with appropriate feedback at the appropriate time.
- assess the learner's progress in proficiency and attainment of standards.

Identification of assessment needs throughout the various phases of planning allows targeted goals and performance to guide the educator in his/her classroom practices. Characteristics of assessment should include:

- A balance between formative and summative assessments within meaningful and authentic contexts.
- Focus on performance in authentic tasks.
- Assessment of any mode of communication.
- Assessment of the four basic skills.

One key concept in the new assessment paradigm presented by the LOF is the use of multiple measures in assessing learners' progress in order to provide ongoing opportunities for learners to show what they are able to do in German. Therefore, the nature of assessment when assessing SLOs is crucial. There should be no place for:

- decontextualised testing such as translation of words/phrases.
- fill-in-the-blank verb conjugations within disconnected phrases.
- endless lists of vocabulary.
- decontextualised assignment titles such as 'My day', but rather the positing of a real life situation where the learner has an opportunity to communicate using this language, such as "Write an email to your German penfriend where you describe about how you spend the day."

In the LOF a task is a performance-based, communicative activity that should reflect how learners can use the language in any situation they find themselves in. Communicative and task-based approaches form part of the pedagogical approach adopted in class. The latter, in particular, provides learners with the opportunity to use all the language they know in an authentic situation which is familiar to them. Furthermore, proficiency-based assessment is an example of an assessment where the learners are asked to perform particular tasks for a specific level. Learners are expected to use a particular level of language which corresponds to the SLO. Written or oral tests are prepared in order to enable learners to use German in life-like situations. These formats may include role-play, paired interviews or writing an email to a German-speaking recipient.

### Assessment

Assessment is an integral part of the learning and teaching process, providing students and their parents with continuous, timely and qualitative feedback about their children's progress, giving teachers' information about their practice and providing schools and colleges with information about their curriculum planning, learning and teaching.

Assessment *for* learning (assessment for formative purposes) is a process carried out as learning is taking place. Learners and their teachers use the outcomes to find what learners know and are able to do in relation to learning.

Assessment *of* learning (assessment for summative purposes) is carried out at the end of a unit, mid-year or at the end of the year.

Assessment *as* learning (ongoing assessment) is the use of ongoing self-assessment by learners in order to monitor their own learning.

In subjects that are taught as modules, assessment of learning will take place at the end of a module. Information and judgments about learning are pulled together in a summary form for purposes of reporting to parents and sharing information with other teachers in the next class or school. If learners are fully aware of what is expected of them (the learning intentions) and the success criteria against which their learning will be evaluated, they will develop the self-evaluation skills which will help them become self-directed learners.

Well-designed and appropriately implemented, classroom assessment processes can:

- support learners to use self-assessment to gauge their learning, identify their strengths, their learning needs and their next steps.
- encourage learners to support one another's learning through peer assessment.
- help teachers to understand children's learning better, use evidence to monitor learners' progress, reflect on their practice and adapt or match their teaching to their learners' needs.
- help teachers plan for the learning of individuals and groups and ensure that all children receive appropriate attention.
- support parents to share their children's learning experiences, interpret assessment information and follow their children's educational development.
- promote the reporting on individual progress and achievement in an incremental manner.

Colleges and schools are required to develop an assessment policy. The policy should seek to address the quantity and quality of assessment practices as well as reporting to parents and other stakeholders.

Adapted from *A National Curriculum Framework for All*, Ministry for Education and Employment (2012:41-42) and *Assessments as learning*, Lam (2015:1)

Learners and others involved in their learning need timely, accurate feedback about what they have learned and how much and how well they have learned it. This helps to identify what they need to do next and who can help them build up their knowledge, understanding and skills. A learner's progress should be assessed in ways and at times appropriate to their learning needs. Judgements made about this learning should be based on evidence from a broad range of sources, both in and out of school and by reference to a learner's progress over time and across a range of activities.

By planning for ongoing assessment opportunities and periodic testing, particularly where learners use their skills in an integrated way, educators will allow learners to demonstrate, over time, *how much* and *how well* they have learned.

A balance of ongoing and periodic assessment opportunities will require learners to demonstrate a body of learning built up over time and to apply their knowledge and skills in different contexts. Mixing a range of learner controlled formative assessment opportunities will allow the learners themselves gauge how they are progressing against individual or grouped SLOs.

Educators should gather a range of quality pieces of evidence to show progression in learning from both ongoing formative assessment opportunities and periodic, summative assessments. The amount and range of evidence should be sufficient to build up a profile of the learner's achievement in the four key skills, but should also be proportionate and manageable. Learners should be involved in the selection of evidence. The evidence should show that the learner has understood a significant body of knowledge, has responded consistently well to challenging learning experiences and has been able to apply what he/she has learned in new and unfamiliar contexts.

Learning, teaching and assessment should be designed in ways that reflect how different learners progress in order to motivate and encourage them in their learning. This approach should involve learners in planning and reflecting on their own learning, through formative assessment, and self and peer evaluation. Current approaches to assessment encourage the learner to carry out a number of communicative tasks. Once learners are given the chance to interact with their peers and receive constant feedback from their teacher, they are ultimately guided to make decisions on how to improve their acquisition of the target language. The learners are thus given the chance to play an active role in self-assessment that encourages them to seek out personal goals for learning German. These types of assessments can be planned at particular points, such as the end of a thematic unit, whereby the learners can judge and review their own performance by means of a grid stating the intended learning outcomes vis-à-vis the level attained.

German educators need to have a clear understanding of how their learners are progressing in relation to others in their school and in other schools in Malta, against the outcomes and experiences at different levels. Regular, planned opportunities for dialogue are to be facilitated by Education Officers to help educators reach a shared and consistent interpretation of meaning as they apply the SLOs.

Educators can:

- For speaking and listening: use class-based activities as informal evidence of the learners' ability to understand and respond comfortably in taking and responding to instruction (for lower levels) and in conversation and/or role-play (for higher Levels). As a class activity, learners may also be asked to listen for information such as key facts (or gist) from news bulletins, newspaper articles or simulated announcements.
- For speaking and pronunciation: plan to use the learners' performance in paired or group speaking activities to build up an ongoing picture of the learners' ability to respond in conversations or role-plays. The educator may also assess learners during such activities.
- For reading skills: planned activities such as searching German websites on the Internet for information on a project, reading from a range of texts or to extract appropriate meaning. Selecting resources at varied levels ensures access to differentiated tasks.
- For writing: use learners' performance in a range of writing activities in class as ongoing indicators of progress. These could include writing instructions for a game, maintaining and updating a class blog, composing slides for a PowerPoint presentation or simply writing their opinions on a theme.

In each skill, the learner does not have to be competent in every outcome at one level in order to move on to the next. When appropriate, the learner should have the opportunity to engage in learning experiences at the next level. Educators should plan to help learners work on all the outcomes, but should take a holistic view of achievements across the four skill areas. When learners have had a deep learning experience at one level, they should move on to the next.

Educators must ensure that their view of what a learner has achieved is supported by sound evidence. Their evaluation of this evidence must be consistent with the evaluations of colleagues in their own, or another, department or centre. Centres should plan together and use their professional judgement to reach a shared understanding of what it means to achieve a level in each of the four skills. Emerging national guidance will support this process. Moderation is particularly important at times of transition from one level to the next and in transitions between Middle and Secondary Years.

The delivery of the learning associated with the CCTs and the associated assessment is the responsibility of all educators. Aspects of all of these, but particularly of literacy, will be a natural part of German lessons. Through learning how another language works, learners can understand their own languages better. Many of the skills required to talk, listen, read and write in German, will mirror the literacy skills being developed in Maltese and English language and other languages learned at school or which learners are familiar with.

Improving the quality of teaching and learning also implies fostering a culture which ensures the transparency of quality assessment outcomes and having in place approaches, structures and roles played by internal and external school evaluation systems.

*Quality assurance in education can be understood as policies, procedures, and practices that are designed to achieve, maintain or enhance quality in specific areas, and that rely on an evaluation process ... [that is] a general process of systematic and critical analysis of a defined subject that includes the collection of relevant data and leads to judgements and/or recommendations for improvement. The evaluation can focus on various subjects: schools, school heads, teachers and other educational staff, programmes, local authorities, or the performance of the whole education system.*

*Assuring Quality in Education: Policies and Approaches to School Evaluation in Europe,*  
European Commission (2015a:13)

Schools will need to begin to develop new quality assurance procedures, while enhancing existing ones, to support the introduction of the LOF and to secure its successful implementation in classrooms. This will need to be part of a whole-school implementation and quality strategy that could include opportunities for:

- Senior Management Teams taking an active interest in teacher CPD, monitoring teacher confidence levels and learner progress, e.g. sampling learners' work and leading whole-school self-evaluations.
- Heads of Schools creating shared preparation and planning time to help facilitate collaborative working.
- standards and expectations sharing through displaying learners' work aligned to levels to show progression, for example in work displayed on a 'learning wall'.
- staff engaging children and young people in discussions about progress and target-setting as part of planning to meet their learning needs.
- development of whole-school approaches to learning and assessment of CCTs.
- clear reporting strategies for feedback on progress within the school and outside the school, e.g. parents and guardians.

In German Departments (in addition to the activities listed above), educators will need to be engaged in:

- regular departmental meetings to plan learning, teaching and assessment in a coherent way, with colleagues sharing effective strategies which they see as improving learning and achievement of learners.
- collaborative planning with other teachers, peer review and discussion of standards and expectations when teaching learners at the same level.
- cross-marking end of topic tests, periodic assessments and other internal assessments by marking learner work from other classes or groups, educators can engage in professional dialogue about the nature of the assessment, its fitness for purpose and the learner results.
- design of assessment materials, marking schemes and reporting strategies in collaboration with other teachers within the department or with appropriate staff in neighbouring schools.
- adopting strategies to avoid pre-judging outcomes, for example marking learners' work without knowing who the learner is.
- professional dialogue around learners' work that has been pre-marked to help reach an agreed view on quality and standards.
- Communities of Practice to share and/or strengthen their professional practice, focusing on sufficiency in assessment, consistency in interpreting SLOs, reporting progress to learners, parents and guardians and other teachers.

The Directorate for Quality and Standards in Education (DQSE) will ensure that:

- Education Officers carry out quality assurance visits to validate accuracy of each school's self-evaluation evidence and sample quality and consistency of the learning, teaching and assessment.
- staff members collate and analyse a range of local and national data to be used as the basis of discussion with Heads of Schools, Deputies and Faculty Heads/Principals to inform planning for improvement of learners' achievements.
- where good practice is identified, Education Officers, School Management Teams and other key personnel organise good practice events for staff across schools within the authority to disseminate good practice.

It is here being acknowledged that any feedback coming from schools, including that yielded from assessment, should reflect the wider objectives of education. Moreover, Quality Assurance conclusions will not automatically impact on the performance of schools. Schools need more than information on their performance – they also need guidance on how to improve and support, while attempting such improvement. The ultimate aim of quality assurance procedures should be to provide schools with an appropriate, coherent and comprehensive evaluation strategy which has a positive impact on the school leadership team and on the quality of teaching and learning.

The Assessment programme for the teaching and learning of German as a foreign language must form part of a programme of teaching and learning that is learner-centred. The classroom approach adopted should nurture engagement in learning and guide learners to develop autonomous skills required to learn the language. Learners should be guided to develop skills to assess their own learning, so as not to remain wholly dependent on the educator during the learning process. The assessment programme should address both productive and receptive language skills within each level of competence. The approach adopted in class focuses on the integration of the four language skills and encourages learners to improve their competence through class and out-of-class work, giving the learners time to learn at their own pace and level.

### **Record of Learning**

A system of both formative and summative assessment underpins the Learning Assessment Programme for German as a foreign language.

A sample handbook, referred to as 'Record of Learning', with guidelines for learners and educators, could be made available to all educators to ensure uniformity and standardisation of assessment practices adopted with each particular year group. This would include topics addressed within that level and the four language skills. A system of assessment based on CEFR 'CAN DO' statements guides both educator and learners through the programme of learning. The 'Record of Learning' handbook would help both learners and educators keep record of formative and summative assessment throughout the five years of schooling, i.e. from Levels 7 to 10. A general evaluation and the outcome of the on-going assessment procedures are to be documented formally once every term.

The direct involvement of learners in their own learning programme is fundamental in the process of guiding learners to work on areas that they need to strengthen in terms of language skills. Educators are to explain the expected outcome and use of the 'Record of Learning' to learners. This effective use of the LAP may only be achieved if educators are able to clearly indicate its scope and help learners understand the principles of Assessment for Learning.

Extended work should be assigned to learners able to work at a level beyond what the educator and other learners are focusing on in class. Learners are encouraged to expose themselves to the language and to continue learning beyond lesson time via internet, books, magazines, television and videos.

## B. INCLUSIVE ASSESSMENT METHODOLOGIES

To help allow vibrant and diverse classrooms to thrive and demonstrate their learning potential educators need to ensure that assessment in the classroom is fair and inclusive, allowing every learner to show what they have achieved and how well they are progressing. Educators can ensure that assessment meets all learners' needs by providing each learner with appropriate support, employing a range of assessment methods and options and, in doing so, affording all learners the best chance of success. This will mean using performance and assessment information from a variety of sources to monitor progress and to inform what needs to happen next in the learning journey.

Educators need to be aware of, and work to, the relevant legislative frameworks that support learners experiencing barriers to learning. Barriers may exist as a result of family circumstances, disability or health needs and social or emotional factors. Where these circumstances occur, learners are entitled to have their additional support needs recognised and supported at the earliest possible stage – by the school, educational authorities and / or the state. Assessment strategies will be effective when educators use a range of assessment approaches flexibly to identify strengths, learning and support needs for vulnerable, disengaged and hard-to-reach learners in their classrooms.

### Supporting vulnerable learners

Supporting vulnerable learners may mean using planning tools such as personal learning plans or multi-agency coordinated support plans. Educators need to place the learner at the centre to ensure each learner with additional or diverse learning needs can achieve positive and sustained educational outcomes.

Educators in the classroom create, and are responsible for, the learning environment where learners learn German. This means actively considering the diverse set of learning needs of learners in the classes they teach. For example, creating an environment that meets the needs of the dyslexic learner effectively means understanding the relationship between the depths of the orthography of the German language (i.e. its complexity and the propensity for breaking its own language rules) and the challenges this may pose in some aspects of a dyslexic learner's attainment. Educators need to consider whether the repertoire of learning and teaching approaches they use will deliver the aims and purposes of the LOF to make these accessible to all learners.

While schools need to consider which approaches will be most effective in helping to remove barriers to learning resulting from social and emotional circumstances including, for example, challenging behaviour, educators need to consider how these whole-school policies translate into action in the classroom.

Assessment planning and the resulting approaches taken (and instruments and methods used) need to ensure that all learners have an equal opportunity to demonstrate what they have learned and what they can do. Educators also need to consider what 'reasonable adjustments' to assessment approaches for disabled learners may look like in assessing ability. This may involve using appropriate assistive technologies. Given that good assessment practice is a key feature of teaching and learning, approaches used to help assess an individual learner's progress need to be as far as possible consistent with those used in the learning itself.

The principle of the continuum of achievement should be such that it allows a learner to follow the best pathway that will allow him or her to reach the maximum of his or her potential - irrespective of whether the student is a high flyer, has average abilities, basic abilities and/or has a disability. In this regard the NCF sought to establish a framework that ensures that, as far as possible, no student becomes a casualty of an education system that is unable to identify those learners who require encouragement and guidance. Equally importantly, the NCF allows for the introduction of different pathways that will truly allow a learner to develop his or her abilities in the manner best suited for him or her.

*Adapted from A National Curriculum Framework for All, Ministry for Education and Employment (2012:5)*

## C. RELIABLE AND VALID WAYS OF ASSESSMENT

Assessment will involve planning high quality interactions with learners and will be based on thoughtful and probing questions drawn from the SLOs and designed to ascertain the extent to which the outcomes have been achieved. Learners will be clear about the kind and quality of work required to achieve success in the SLOs. The methods of assessment used need to reflect the nature of what is being assessed.

In the periods between formal assessment interventions individual learners should be encouraged to ask for and should be given timely feedback about the quality of their work that they can understand, reflect on and ask questions about. Educators should strive to encourage the learner's active engagement in discussion about their work and progress, and suggest the steps they can take to improve their performance.

Educators should seek to empower learners to develop the skills to evaluate their own and each other's work against the SLOs, encouraging them to develop an appreciation of their own learning needs, how well they are progressing towards achieving the standard exemplified by the SLOs and the types of action they need to take to improve their progress.

A range of assessment methods will need to be used to ensure that the right standard and balance of productive and receptive skills in German is being achieved. The need to produce the right balance across assessment in German will need to be matched by the use of a similar balance of teaching strategies to ensure that progress across all four skills areas is taking place.

The SLOs have been written in a way that is designed to ensure that the learning expectation is clear. They also act like an anchor for any and all related assessment activity by defining the learning that is in scope for assessment activity and by omission being clear about what is not in scope. This makes the assessment process and assessment expectations more transparent for the learner. At times SLOs involve an additional layer of detail delivered through the use of exemplification to illustrate the nature of the challenge within the SLO or through a clear statement of what must be included as a minimum in addressing the learning associated with the SLO.

Where there is exemplification, the example given is designed to be indicative of the degree of difficulty or challenge expected to be reached in the SLO. The example adds a further layer of detail and clarity so the educator knows the standard the learner should be looking to achieve.

The following examples are taken from the German SLOs:

- I can use vocabulary such as 'berühmt, beliebt' and vocabulary related to high profile careers *e.g. Sänger(in), Schauspieler(in), Komiker(in), Fußballer (in)* and use fixed phrases *e.g. Er ist... geboren* and use 'seit' + time phrase and the present tense.

Taken from Level 8, Subject Focus: Introductions

- I can use vocabulary and structures related to jobs/professions showing consolidation of numbers, opinions, adjectives, a range of regular and irregular verbs and modal verbs and use pronouns in the accusative and dative cases well *e.g. Mir geht es gut! Ich möchte nicht als Lehrerin arbeiten. Ich finde den Job anstrengend.*

Taken from Level 9, Subject Focus: Introductions

In both of the above examples each SLO has additional detail about the type and level of vocabulary required.

What the assessment should really be trying to establish is whether the learners have reached the standard of the SLO. Can they do what the SLO says they can do? Can they demonstrate the ability to do what the SLO claims for them and can they do it routinely, confidently and comfortably? Here the educator's professional judgement and the professional agreement on what constitutes achievement is important.

The assessment standard is not necessarily what is stated in the SLO. The standard is the shared and consistently applied interpretation of what acceptable learner performance in response to the SLO looks like. In order to reach this judgement, educators will need to work within the subject teaching community to agree what achievement looks like at each of the levels (e.g. Level 8), at the level of the Subject Foci within a level and at the level of an SLO where this is not immediately apparent and there is scope for ambiguity or interpretation.

Assessment within the LOFs will need to be subject to robust quality assurance procedures that are designed to instil confidence in teachers' assessment judgements and assure parents, guardians and other stakeholders that all learners will receive appropriate recognition for their achievements in line with the agreed national standards and that learners are making the appropriate progress in line with expectations.

Where assessment is for high stakes qualifications and external certification, particular safeguards are required to guarantee fairness to all young people and to provide assurance to parents and guardians, MCAST, the University of Malta and employers that the system is robust. To that end MATSEC will produce clear assessment plans for Level 9 and 10 assessment, detailing the balance between high-stakes external assessment and internal assessment procedures and quality assurance.

As learners approach points of transition (for example, across Levels) it is important to have rigorous and robust assessment and related quality assurance procedures in place in order to ensure that there is a reliable system for sharing information about progress and achievements. Again, MATSEC and/or DQSE will be responsible for producing the guidance documentation detailing the policy and procedures for any transition assessment arrangements involving high-stakes or external assessment.

### **Working the room: Measuring the impact of the teaching**

This whole-class assessment technique can be used with Level 8 and 9 learners. Challenge stations are set up around the room, a sufficient number is required to split the class into groups of 3-5 with a different challenge presented to each group. The challenges should be related to what has recently been taught in class and should be based on two or three distinct learning outcomes. The groups should be balanced out evenly in terms of ability with the addition of the elements of time and reward to keep motivation up and maintain the competitive spirit. Assessing such an activity provides a good idea of how the whole class understands what has been taught.

For example, some challenges could focus on grammar (e.g. learners could be asked to identify the correct auxiliary verbs for a perfect tense, forming past participles and/or spot deliberate mistakes). Other challenges could be more vocabulary-based (e.g. challenges involving filling in diagrams to test knowledge of recent topics, or matching an image to a written text). The results will give a good indication of areas in which learners are less confident, allowing the teacher to reflect on how these areas were taught and how they could be revisited.

*Adapted from *Designing Effective Activity Centers for Diverse Learners: A Guide for Teachers At All Grade Levels and for all Subject Areas* (Hilberg, Chang and Epaloose, 2003)*

## D. ASSESSING CROSS CURRICULAR THEMES

The embedded CCTs within the SLOs are for guidance purposes only. As already indicated, the teacher may have better ideas of where, when and how to embed particular aspects of the CCTs.

The CCT icon in embedded SLOs is followed by a sub-heading from the CCT. This indicates the particular area of content that seems most appropriate for embedding within the delivery of the SLO.

The guidance about CCTs also describes how CCTs can be addressed through the choice of pedagogy or delivery style, classroom activity or approach to learning. Some may also be addressed through the introduction of whole-school or year group, curriculum enrichment activities or the adoption of particular sets of behaviours within the school community. The flexibility and freedom to decide upon and select which methods, opportunities and aspects of the CCTs are addressed when, where and how is entirely a subjective one. The aim is to ensure that the learners, through the course of their learning journey through the LOF, come into contact with the key learning associated with all the CCTs in significant and meaningful ways. The role of the CCTs is to yield resilient, adaptable, empowered young people with the robust, transferable skills the country needs to remain caring, inclusive, competitive and productive. This needs to be kept in mind when looking at the overall implementation and embedding of CCTs in the curricula.

This open and flexible approach to where, when and how CCTs are addressed is a challenge when it comes to trying to prescribe assessment approaches. While the lack of uniformity and consistency of when, where and how to embed CCTs in the LOF and in each subject area is attractive from a flexible delivery viewpoint, it represents a challenge in assessment from a standardisation standpoint.

The guidance around assessment of CCTs is simply to ensure that:

- the impact of the embedding strategy adopted at the classroom, departmental and school level is known and understood in terms of what has been learned.
- there is communication between schools, tutors and class teachers about the progress learners have made in coverage and acquisition of the CCT content.
- learners engage with each of the six CCTs with sufficient frequency, meaning and depth to allow them to achieve the key competencies they cover and to benefit from the new learning and skills each CCT introduces.

In each subject, educators may find it most beneficial to work with peers to determine the best-fit CCT opportunities, creating a support community to share development of resources and to help agree a consistent approach to teaching and assessment expectations when it comes to embedding the CCTs. Within this support community one can attempt to:

- agree which teaching approaches lend themselves to particular CCTs.
- share ideas and resource development.
- develop project-based approaches to SLO delivery that are enhanced by CCT inclusion.
- standardise assessment expectations around CCTs.

## E. REPORTING PROGRESS

### Learner and Parent/Guardian Reporting

Reporting on learning and progress should offer learners, parents, guardians and teachers insight into what learning expectations have been set, how the learner is progressing in relation to these learning expectations and how the learner can do what needs to be done to ensure continued progress and improvement as they go forward with their learning. Reporting should always be constructive, insightful and able to be used to stimulate meaningful discussion between the teacher, learner and their parent or guardian. It should, at the same time, be reflective, looking back at achievement, and forward-looking, focusing on improvement.

The LOF offers local flexibility for schools to decide how best to report information on learner progress, achievements and next steps within a clear set of national expectations. How frequent and what form such reporting takes are also decisions to be taken at the school and college level.

#### National expectations for reporting

Reporting will provide the learner, their parents or guardians with information on progress and achievement in each subject that includes:

- constructive, insightful and clear feedback throughout the learning experience.
- feedback on the learner's particular strengths, areas for development and completed achievements.
- feedback on the different curriculum areas.
- the particular support the learner is receiving to help them progress.
- attitude of the learner to learning.
- how home can play an active part in supporting the learning process.
- an opportunity to capture the learner's voice.
- an opportunity for parents/guardians to respond directly to the reporting feedback.

It is important that the reporting structure used is manageable for teachers.

Reporting is based upon the assessment of progress and there is a balance to be struck between how often assessment of progress is made and how often this progress is recorded and communicated to the learner and the parent/guardian. The reporting needs of the two groups are different:

- Learners should be receiving feedback on progress on an ongoing basis as a routine part of the learning and assessment process. The use of formative assessment (often called Assessment for Learning) should be a routine part of any assessment strategy. This makes this type of reporting frequent and continual.
- Parents and guardians need to be kept informed of their child's progress at key points in the learning journey where there needs to be feedback given around achievement and a discussion instigated between home and school about how further progress and improvement can be made. This makes this reporting much less frequent but recurring. At the very least, achievement of a level should be reported every time a level is achieved.

### Reporting process

It is important to set up a process by which learners can take some ownership of what is reported. Educators should consider working with learners to determine which evidence should be drawn upon to summarise learning and progress for the purposes of reporting. This will invite reflection and dialogue about their learning and will be a useful opportunity to help the learner engage more deeply and meaningfully in discussion about their own learning. This type of dialogue will not restrict or impinge upon educators' professional judgements but will offer them some insight into the learner point of view and may help deepen their understanding of the impact of their own learning strategies.

The LOF offers the ability to report progress within the subject at different levels of detail. Each subject is broken down into levels, containing Subject Foci and each Subject Focus is further broken down into SLOs. With the SLOs making the outcomes of learning explicit, it will be important to establish what the learner, parent/guardian needs to know about progress against the SLOs and what can feasibly be shared, how often and when. Educators will first need to separate out internal reporting needs to chart a learner's progress, so that this can be shared with other teachers as they progress in other subjects, to benchmark progress more widely. Different audiences will need different details about learner progress.

The school and the relevant department need to set the policy on how they intend to report.

### Internal Reporting

In order to maximise the opportunities that the LOF brings in terms of flexibility and freedom to help learners progress towards the learning expectations, the teacher will need to have a detailed appreciation of what the learner has already achieved and just how they relate to the learning expectations that the teacher is responsible for teaching. The teacher who comes next will also expect an appraisal of learner performance. It will be important to establish, through discussion with colleagues, how best to manage this internal communication and reporting in order to ensure a balance between what is helpful and insightful in assisting with the transition process and what is unwieldy, onerous and unmanageable.

It is important to remember that the detail that can be created around individual performance does not necessitate or promote an individualised teaching programme for each learner. Instead it is there to be used to facilitate a more responsive approach to curriculum design and more appropriate selection of teaching strategies and resource selection within the class.

As learners progress through the LOF, moving from level to level, year to year and class to class they will progress at different rates. This represents a challenge if learning is to remain fluid and continuous and progression is to be uninterrupted. That said, the Subject Foci and SLOs allow teachers to profile progress and achievement and to communicate that progress in a regular manner, indicating where the learner sits in relation to the overall expectations of a level, even indicating where there is some achievement beyond the level. The school is given the flexibility to decide how best it wants to communicate learner progress within the school and between those responsible for their learning and progression. Within the subject teaching team it will be important to identify an approach that is functional and clear within the subject and will ultimately maximise the Learning Outcome Framework's ability to chart progress in detail and in a personalised, learner-centric way.

A simple Achieved/Not Yet Achieved is clear feedback, yet it does not convey how close or far from being able to demonstrate achievement of the SLO the learner is. Educators may find it useful to come up with a convention that does more than just use a binary method of reporting achievement. Communicating more information about how a learner is relating to a particular level helps instigate discussion of where there may be particular learning challenges or where a learner has only started the learning associated with particular Learning Outcomes.

Evidence informing reporting should be drawn from a range of sources, including formal and informal assessment interventions, and educators should apply their professional judgement to a sufficient and robust body of evidence that allows them to report with confidence about progress made against a significant body of learning. Formal summative assessment interventions need to be subject to collaborative design and development and feature a measure of quality assurance and moderation to ensure what is reported is benchmarked against a wider understanding of the national standard.

#### How it is done elsewhere

The Scottish *Curriculum for Excellence* frames progression in relation to the learning expectations as developing, consolidating or having secured the learning objectives. These are not rigid categories but signposts indicating where the learner sits in relation to the expectations.

Typically, a learner who has started to engage in the work of a new level or area and starting to make progress in an increasing number of outcomes is at the Developing stage.

Once the learner has achieved a measure of breadth across the Subject Foci; can apply the learning in familiar situations; is beginning to show increased confidence by engaging in more challenging learning; and is starting to transfer their learning to less familiar contexts, they are engaged in a process of Consolidation.

Once significant achievement across the Subject Foci and outcomes has been recorded and there has been consistent success in meeting the level of challenge within the outcomes; learners are engaged in more challenging work; and are confidently transferring their learning and applying it in new and unfamiliar situations, their position in relation to expectations is viewed as Secure.

# Appendix

## Digital Literacy

Digital literacy has become essential for learning and life. Besides cutting across various disciplines it must now be considered as being a discipline of its own such as music, art, science and literature. Digital literacy education seeks to equip learners with the competencies (knowledge, skills and attitudes) in the use of digital technology needed to access learning opportunities, to pursue their chosen careers and leisure interests and to contribute to society as active citizens. It also aims to provide them with knowledge of the principles underpinning these technologies and a critical understanding of the implications of digital technology for individuals and societies.

Digitally literate learners learn to become independent, confident and discerning users of technology. Subsequently they acquire and develop critical and analytical attitudes to appropriately choose the right digital tools according to specific needs.

Digital literacy includes five categories of digital competencies, namely: Information Management, Communication and Collaboration, Digital Media, Using Digital Tools for Learning, Management of the Internet.

The competence in information management enables learners with the means to access, evaluate and analyse and hence make an informed choice from a range of available data and information sources. Competencies relating to Communication and Collaboration empower learners to learn to communicate, collaborate and network with others. Competencies in Digital Media enable learners to analyse messages mediated by digital media and to express themselves creatively across a range of digital media.

Digital literacy also involves competence in using digital tools in various media and in different modes of learning (autonomous, collaborative, exploratory, designing). Digitally literate learners will learn to be responsible and competent in managing the internet, keeping themselves safe and secure online, making informed choices over privacy, taking responsibility for their actions, respecting intellectual property, abiding by the terms and conditions of systems they use and respecting the rights and feelings of others. In teaching digital literacy, teachers should look for authentic, meaningful and socially inclusive learning opportunities which allow learners to apply and develop their skills, knowledge and understanding across the curriculum. Digitally literate learners should be able to undertake challenging creative projects, both individually and collaboratively comprising aspects from different competence categories.

## Theme Learning Outcomes:

### Information Management

- I am able to identify and articulate my information needs.
- I can find, select, use and combine information from a range of sources.
- I can safely and critically navigate between online sources and select information effectively
- I can navigate between online sources and select information effectively.
- I can create personal information strategies.

### Communication

- I can communicate through a variety of digital devices and applications.
- I can adapt my communication modes and strategies according to the people I am communicating with.
- I can use different digital tools to share knowledge, content and resources.
- I can help others to share knowledge, content and resources.
- I know how to quote other people's work and to integrate new information into an existing body of knowledge.
- I can engage with on-line learning communities effectively.
- I can use digital technologies to participate in online citizenship.

### Collaboration

- I can use technologies and media to work in teams and collaborate in learning.
- I can collaborate with others and co-construct and co-create resources, knowledge and learning.
- I can function well in digitally mediated Communities of Practice

### Use of Digital Media

- I can review, revise and evaluate information presented in a range of digital media.
- I understand both how and why messages in digital media are constructed and for what purposes.
- I can examine how individuals interpret messages in digital media differently.
- I understand how values and points of view are included or excluded and how digital media can influence beliefs and behaviours.
- I understand the ethical / legal issues surrounding the access and use of digital media, including copyright, ownership, licensing and use of proprietary content or software.
- I can work creatively across a range of digital media and multiple systems to present information effectively to a given audience.
- I can edit and improve content that I had already created or that others have created, respecting and acknowledging the rights of the original author.
- I can express myself through digital media and technologies.

### Managing Learning

- I can use various tools to manage my own learning.
- I can use various tools and approaches to collaborate with others in learning.
- I can use various tools to explore ideas, theories, relationships and procedures.
- I can use various tools to learn by designing digital objects.
- I can use various tools and approaches to reflect on learning.
- I can use various tools and approaches to evaluate what I have learnt.
- I can build and assess e-portfolios.
- I can work on multiple eLearning management systems and platforms.

### Managing Internet Use

- I understand how the internet and the world wide web work and can use them for communication and collaboration.
- I am aware of and abide by the principles of netiquette.
- I know what constitutes plagiarism.
- I can protect my devices from online risks and threats.
- I can protect myself and others from possible online dangers (e.g. cyber bullying) by following appropriate privacy and confidentiality procedures.
- I am able to consider the social, cultural, religious and ethical implications of digital technology and can confidently communicate, share information, access and distribute content without infringing upon other peoples' intellectual property.
- I am aware of cultural diversity online.
- I can develop active strategies to discover inappropriate behaviour.
- I can create, adapt and manage one or multiple digital identities.
- I can protect my e-reputation.
- I can manage the data that I produce through several online accounts and applications to avoid health risks related with the use of technology in terms of threats to physical and psychological well-being.
- I recognise Cloud Computing as a converging technology on which I can work and save my material.

## Education for Diversity

The National Curriculum Framework (NCF) acknowledges Malta's cultural diversity and values the history and traditions of its people. It acknowledges and respects individual differences of gender, colour, ethnic and social origin, language, religion or belief, political or any other opinion, membership of a national minority, birth, ableism, age or sexual orientation and geographical location. A curriculum that acknowledges the fact that diversity is a feature of Maltese society, as it is of nations across Europe and the world, that can contribute to national prosperity and social cohesion.

As a member state within the United Nations, Malta is a signatory to international human rights instruments including the Universal Declaration of Human Rights (1948), the European Convention for the Protection of Human Rights and Fundamental Freedoms (1950), the International Covenant on Civil and Political Rights (1966), the International Covenant on Economic, Social and Cultural Rights (1966) and the UN Convention on the Rights of the Child (1989). As a member of the European Union, Malta is legally bound by the EU Charter of Fundamental Rights.

These instruments set out international standards and commit Malta's government and people to democracy and to acknowledging that citizens and other residents have, and should enjoy, human rights without discrimination.

Consequently the NCF aims to help children acknowledge social justice and solidarity as key values in the development of the Maltese society and encourage young people to uphold fundamental democratic values and promote social justice.

Education for Diversity promotes an inclusive educational culture and challenges various educational processes such as decision making within schools, languages of instruction, methodologies used, learner interaction and learning resources. Education for Diversity ensures the inclusion of multiple perspectives and voices within the learning environment, provides spaces for learning about the languages, histories, traditions and cultures of non-dominant groups in a society, encourages team work and cooperative learning in multicultural, multi-ethnic and other diverse contexts, combines traditional and local knowledge and know-how with advanced science and technology and values the practice of multilingualism. In doing so, it encourages an understanding of global issues and the need for living together with different cultures and values.

### Theme Learning Outcomes:

#### Self Awareness

- I am a person committed to democracy and understand that this means ensuring people of different views and cultures have their say and work together for a better society.
- I have a principled and ethical approach to life.
- I am committed to social justice and a democratic and inclusive society.
- I reserve judgement so that it may be made on a fair and rational basis.
- I strive to strike a balance between my rights and duties and those of others.

### Social Change

- I uphold fundamental democratic values and work to promote social justice.
- I respect the different religious and humanist convictions, morals and beliefs that inform people's conceptions of right and wrong.
- I recognise unfairness, injustice and preferential treatment in daily life situations including racist, sexist and homophobic language and behaviour.
- I challenge expressions of prejudice and intolerance towards minorities such as racist, sexist and homophobic names, anecdotes and comments.
- I claim my rights and act on my duties knowing that my fellow learners and teachers have equal entitlement to their rights.
- I appreciate that the notion of 'identity' is complex and changing and limited as a concept in capturing who I am and that the idea of 'identities' is a more powerful way of understanding who I am and who others are.
- I attend and respond to my teachers and fellow learners and accept that they may have different points of view.

### Communicating for Diversity

- I communicate with, work with and respect all of my fellow learners, teachers and adult helpers.
- I communicate with people who are different to understand how we are the same and to understand myself better.
- I strive to communicate effectively with others in a constructive, supportive and self-determined way.
- I can use effective language to challenge injustices and inequalities.
- I approach differences of opinion and conflicts of interest through dialogue, non-violent communication and consensus; where this fails, I am willing and able to use mediation.

## Education for Entrepreneurship, Creativity and Innovation

While entrepreneurship, creativity and innovation can potentially be seen as being discrete attributes, it is perhaps more strategic to consider them as mutually reinforcing features of a more cohesive and singular aim: to ensure that the future citizens of Malta have the wherewithal to contribute to the sustainable prosperity of the nation in an increasingly competitive global economic and social contexts. The goals include the four main competence areas of personal and interpersonal skills, practical and cognitive skills. This more strategic vision reinforces the need for an approach to Entrepreneurship, Innovation and Creativity that permeates all aspects of the curriculum, while being clearly signposted to ensure that learners' entitlements are being met and that learning and teaching in relation to these themes can be quality assured.

The overall goals of entrepreneurship education are to give learners the attitudes, knowledge and capacity to act in an entrepreneurial way and to acquire the skills that will promote their lifelong employability in a rapidly changing commercial, economic and social environment. This includes becoming entrepreneurial citizens in other spheres beyond industry or employability. These goals require the development of the 'soft' generic personal and interpersonal skills fundamental to becoming entrepreneurial, as well as the fostering of the more discrete entrepreneurial knowledge and understanding required to pursue entrepreneurial endeavours and to possess an entrepreneurial mindset which is both creative and innovative.

Creativity is generally recognised as both an innate yet often under-developed quality in young people, as well as a practical skill that helps to unlock an entrepreneurial disposition. It is a skill that can be taught and that everyone can aspire to. It involves opening up young peoples' thinking processes in ways that help them to look at familiar things with a fresh eye, to identify and frame a problem and to generate solutions whilst using their imagination, knowledge and skills to explore new possibilities rather than established approaches.

The ability to be innovative and the confidence to look for innovative responses to opportunities or problems encountered is best nurtured in a safe, supportive environment where this type of approach is encouraged, recognised and rewarded. Such a pedagogy requires allowing learners time to reflect on a situation and tap their resources and imagination to develop plans and solutions. It also requires time for implementation of new processes and the application of new ideas. Teaching and learning for innovation might even include space to 'learn from failure'.

### Theme Learning Outcomes:

#### Personal

- I can work effectively on my own.
- I am resilient and can persevere.
- I understand the importance of nurturing a positive self-image, self-esteem and self confidence.
- I recognise the importance of integrity and ethical values.

#### Interpersonal

- I know how to communicate my proposed strategies to others effectively.
- I am able to contribute to a team.
- I am able to take the lead.

**Cognitive**

- I am able to solve problems imaginatively and laterally.
- I am able to think critically.
- I am able to consider different perspectives.
- I can recognise that entrepreneurship and innovation should be underpinned by ethics and values relating to social justice and sustainability.

**Practical**

- I can turn creative ideas into action.
- I have a basic set of research skills.
- I am able to audit my own skills and interests in order to consider future academic and vocational career choices.
- I appreciate the importance that creativity and entrepreneurship have played in the development and progress of human society.

# Education for Sustainable Development

Education for Sustainable Development (ESD) helps learners to develop the necessary competences (knowledge, skills, values, attitudes and behaviour) that enable them to become sustainable citizens. ESD empowers individuals to actively participate in decision making processes which are compatible with living within the environmental limits of our planet in a just, diverse, equitable and peaceful society.

ESD seeks to ensure that learners:

- Develop a sense of identity and belonging to their local, national, regional and global community.
- Are empowered to adopt their roles and responsibilities within a globally interdependent world.
- Understand and are empowered to address the real causes and consequences of unsustainable behaviour within the context of an interdependent and globalised world.
- Develop a future-oriented perspective that highlights the significance of their decisions, choices and actions on the quality of life of present and future generations.
- Are exposed to diverse learning environments using a broad array of educational experiences.
- Develop a holistic concept of the environment involving natural, social, economic, physical and cultural perspectives.
- Value and respect social, cultural and ecological diversity.
- Are committed to action to bring about change.

ESD should be achieved through a whole-school approach that involves the reorientation not only of the curriculum, but also of the school culture, the school campus management, the school community and the wider local community in line with sustainable development.

Learners should experience ESD through transformative pedagogies that facilitate ESD teaching and learning experiences that promote the acquisition of the knowledge, skills, values, attitudes and behaviours necessary to become active global citizens.

ESD should be a lifelong learning process involving a blend of learner-centred processes, such as participatory/ collaborative learning; problem-based learning; inter-disciplinary learning; multi-stakeholder social learning; critical and systemic thinking-based learning; action learning; learning outside the classroom; experiential learning; reflective evaluation and using relevant real-world contexts.

## Theme Learning Outcomes:

### Learning to Know

- I can explain how the natural, social, cultural and economic systems work and are interrelated.
- I can describe my role as a citizen within the local, national, regional and global context.
- I can recognise the relationship between understanding others and the wellbeing of all in the present and the future.
- I can identify the root causes of inequality and injustice and actions that lead to a better quality of life, equity, solidarity and environmental sustainability.
- I can justify the importance of identifying problems, reflecting critically, thinking creatively and having a wider vision in order to plan for the future and become an effective agent of change.
- I can recognise the importance of lifelong learning and use such learning experiences to approach new challenges and be in a better position to take informed decisions and evaluate their consequences.

### Learning to Do

- I can communicate my ideas and present my opinions in thoughtful and informed discussions and decision making processes.
- I can critically assess processes of change in society and envision a more equitable and sustainable world.
- I can identify priorities and evaluate potential consequences of different decisions and actions.
- I am able to collaborate with people having different perspectives on dilemmas, issues, tensions and conflicts from different disciplines/places/cultures/generations.
- I can use the natural, social and built environment that surrounds me, as a context and source of learning.
- I can involve myself and others in real-world issues to bring about a positive difference.

### Learning to Be

- I am a critically reflective person and am able to evaluate decisions, choices and actions.
- I am responsible for my actions and capable of anticipating, adapting to and facing change.
- I can reflect upon the consequences of my actions on present and future generations.
- I am sensitive to divergent disciplines and perspectives, cultures and minority groups, including indigenous knowledge and worldviews without prejudices and preconceptions.
- I am motivated to make a positive contribution to other people and their social and natural environment, locally and globally.
- I am able to creatively and innovatively take considered action and challenge assumptions underlying unsustainable practice.

### Learning to Live Together

- I can live in harmony with myself, others and the natural world at a range of levels from the local to the global.
- I respect and value diversity and challenge social injustice.
- I have a future-oriented perspective for how I live my life as a citizen of the world.
- I actively engage myself with different groups across generations, cultures, places and disciplines.
- I can actively participate in processes and encourage negotiations for alternative sustainable futures.
- I will help others clarify diverse worldviews through dialogue and recognize that alternative frameworks exist.
- I will challenge unsustainable practices across educational systems, including at the institutional level.

# Learning to Learn & Cooperative Learning

The aims of Learning to Learn are for learners to:

- Focus on learning processes as well as final performances.
- Hold a rich conception of learning and based on a personal conviction to manage own learning.
- Acquire a wide range of strategies for learning.
- Develop strategies to plan, monitor and review their own learning.
- Become competent in self-assessment.

## Theme Learning Outcomes:

### Social Learning

- I can appreciate diverse viewpoints and personalities.
- I am confident in discussing my views with others.
- I can follow the ideas of others and comment on their views.
- I can follow group discussions and collaboration and summarise what is being said or done.
- I collaborate with other learners as part of my learning.
- I learn by designing products with others.
- I seek out and am open for guidance and support from peers and adults.
- I am able to talk with others about learning.
- I listen to others talk about learning.
- I can discuss various subjects and learning strategies with peers.
- I can debate and support my argument without being judgemental while still empathising with others.
- I can learn about my needs to make the right choices.

### Personal Learning

- I can identify the support and resources I need to learn.
- I am aware of my preferred way to learn and can use this to plan my own learning.
- I manage goals and time efficiently in learning.
- I feel competent in managing my own learning.
- I am open to feedback from others and am able to consider it for my personal improvement.
- I reorganise myself by explicitly changing my assumptions over time.
- I am able to follow my own interests as this helps me to reflect on 'who I am'.
- I am pleased when I succeed at difficult tasks.
- I believe that effort can lead to success.
- I reflect on my mistakes and learn from them.

### Cognitive Learning

- I am able to remember by recalling, recognising and locating information.
- I am able to link new information to my existing knowledge.
- I am able to analyse information that I come across.
- I evaluate knowledge in terms of my learning objectives and my preferred way of learning.
- I am able to solve problems on my own and in collaboration with others.
- I am able to assess myself as this helps me to understand what I know and who I am.
- I assess myself to analyse and further develop my ideas.

- I assess my peers to compare what I know to what others know, gaining knowledge of what mental models others hold of a particular concept and how these mental models can evolve for understanding to happen.
- I am able to focus on the main subject and summarise important points.
- I am able to apply my knowledge and understanding in differing contexts.
- I can manage my own learning to improve important skills including literacy and numeracy skills.
- I understand that learning involves different processes.

### **Creative Learning**

- I take initiative in designing new products.
- I am able to think about new ways of making good use of objects.
- I am able to use my imagination and creativity.
- I prefer to move on to challenging tasks rather than stay on easy ones.
- I am able to face new, challenging experiences and learn from them.
- I learn by exploring events, life experiences and the physical environment.
- I am able to engage in unplanned spontaneous play.
- I am able to engage in planned, purposeful play.
- I understand that I can improve and learn and that if I am stuck I can think upon my difficulties, solve my problems and move forward.

## Literacy

One of the most important aspects of literacy in Malta is the implication that a literate person is fluent in both Maltese and English. An essential factor to ensure that Malta remains a bilingual country is making sure that its learners develop equal competences in reading, writing, speaking, listening and comprehending in both official languages from the early years, preferably from kindergarten. Another is ensuring that learners develop the skill to switch easily from Maltese to English (or vice versa) depending on the situational need. Achieving bilingual literacy in our education means that all our young people feel comfortable and confident using both languages.

Literacy development will require a whole-school approach that is clearly reflected in school policies where there is a conscious effort in which a community for literacy is promoted throughout the curriculum. Literacy for learning is an intrinsic part of school life and every subject domain can serve as a context whereby literacy skills development could be enhanced. Furthermore, schools should strive for a literacy rich environment using technology as a platform.

The relevance of reading aloud and presenting ideas to an audience and the opportunities for contextualised language and play acting (drama) should be clearly identified as components of spoken literacy across the curriculum. Stressing the importance of oracy is key to encouraging active learning cultures and communities.

With regard to reading, the fun and interactive aspect of reading is very important; the purpose of reading should initially be for fun/interest and communication. The value of entertainment in reading, which is closely linked to attitude and disposition to language, is crucial especially in the Early and Junior Years. Critical and creative thinking, where the learner increasingly takes control of texts in different domains and gains awareness, will follow.

### Theme Learning Outcomes:

#### Listening and speaking

- I can converse in a range of situations, both formal and informal, matching register and language to the situation and audience.
- I can listen to and understand spoken text well and respond or apply the information appropriately with comments and/or questions.
- I can use language to present my thinking logically and clearly and can talk to engage an audience while analysing and evaluation through an open-ended approach.
- I can use spoken language to share my ideas in a collaborative way, appreciating the social elements of conversation such as waiting for my turn and listening to what others have to say.

#### Expressive language

- I can use expressive language to develop my own thinking, using words to explore, clarify and confirm ideas.
- I can use expressive language to develop my thinking and the thinking of others by contributing to the explorative talk of my peers and the dialogic talk of my teachers.
- I can use expressive language to organise and rehearse ideas, arguments and language structures in order to synthesise and evaluate before writing and while editing.

### Reading and understanding

- I can decode print effectively and successfully establish multisensory linking and phonemic awareness between grapheme and phoneme.
- I can read text in a fluent manner and understand what is written, gain knowledge and enjoy the process.
- I can select real, virtual and multimedia texts to entertain and inform me, constructing meaning from text, using words and visual or audio information to confirm, complement or change what I already know while discarding the superfluous.
- I can approach texts purposefully: I am aware of what I hope to gain from them and am able to use retrieval devices, cross references and links to follow themes or ideas through various means including texts accessed via technology.
- I can select appropriate texts for my purposes, taking account of implied readership and provenance as well as subject matter and format.
- I can identify and follow the different reading conventions of my academic subjects, regarding the place and purpose of reading texts in learning and in questioning or accepting the authority of these texts.

### Writing

- I can draw on what I have read, what I have done and what I have felt at home, at school and at play to inform my writing.
- I can convey my thoughts powerfully and eloquently through speech and text.
- I can select the appropriate language, register, genre and medium for the texts I write.
- I can use writing in both manuscript (handwritten form) as well as digital form in order to inform, to persuade and to entertain other people.
- I can use writing to consider ideas and to reflect on and consolidate my own thinking and learning. I can follow the writing conventions of the genres and subjects I am studying.

### Accuracy

- I can write accurately using language conventions and rules such as those established by Standard English / Kunsill Nazzjonali tal-Ilsien Malti / I-Akkademja tal-Malti.
- I can use my knowledge of morphology as well as my phonological awareness and visual memory to attempt to spell unfamiliar words and recognise correct spelling.
- I can use a range of punctuation marks to make my meaning clear to a reader.

### Planning and reflection

- I can plan my written work and think what I want to communicate before I start to write.
- I can understand the need for drafting; I can edit and proofread my work and allow sufficient time in which to complete a piece of work.
- I can reflect about my writing and think about how I learn best.

## Learning Outcomes Framework

This document is part of the ESF1.228 Project entitled 'Design of Learning Outcomes Framework, associated Learning and Assessment programmes and related Training' implemented under the Operational Programme II – Cohesion Policy 2007-2013 and was part-financed by the European Union European Social Fund co-financing rate: 85% EU Fund; 15% National Funds.
