General comments or concerns about the subject:

I suggest that there should be a better link between the learning outcomes presented to students and the final secondary exam (presently – MATSEC).

I am of the opinion that the outcomes of each subject focus should be presented according to skills (reading, writing, speaking and reading). This will guide teachers to focus more on skills.

General comments or concerns about the subject:

Very ambitious learning outcomes...taking in consideration that

a)most schools in Malta use the WRONG books (Schritte international -for adults....the "Sie" form is used throughout)

b)Form 5 can NOT be considered as a full academic year. In reality students have 4 years of German, not 5

Are there any Learning Outcomes you (respondants) would take out? Specify which and why.

In general.....the learning outcomes should be reduced. Too much for only 4 years of teaching

General comments or concerns about the subject:

The choice of topics is a good one, because it covers topics which the students like to work upon. However, I feel that it is a bit too much for slow learners. Otherwise it s fine.

Level 8 -LO Out and About - Point 7 - Students find writing such descriptions as required in a brochure very difficult, since they need to use adjective agreement, sometimes without article.

General comments or concerns about the subject:

I find the fact that topics such as 'Technology' and 'Social Issues and Young people' were introduced is very positive. I think students will find such topics very interesting.

Level 10 - LO School - I would leave point 4 out, due to it requiring use of conditional tense, which students inform 5 don't really have time to master properly.

General comments or concerns about the subject:

Topics have been reduced from Level 7 and postponed to further levels. Hence more time and opportunity for use and mastery of language learned.
